

ANNEX A

Local government geography and history

This annex contains the following geographical and historical information:

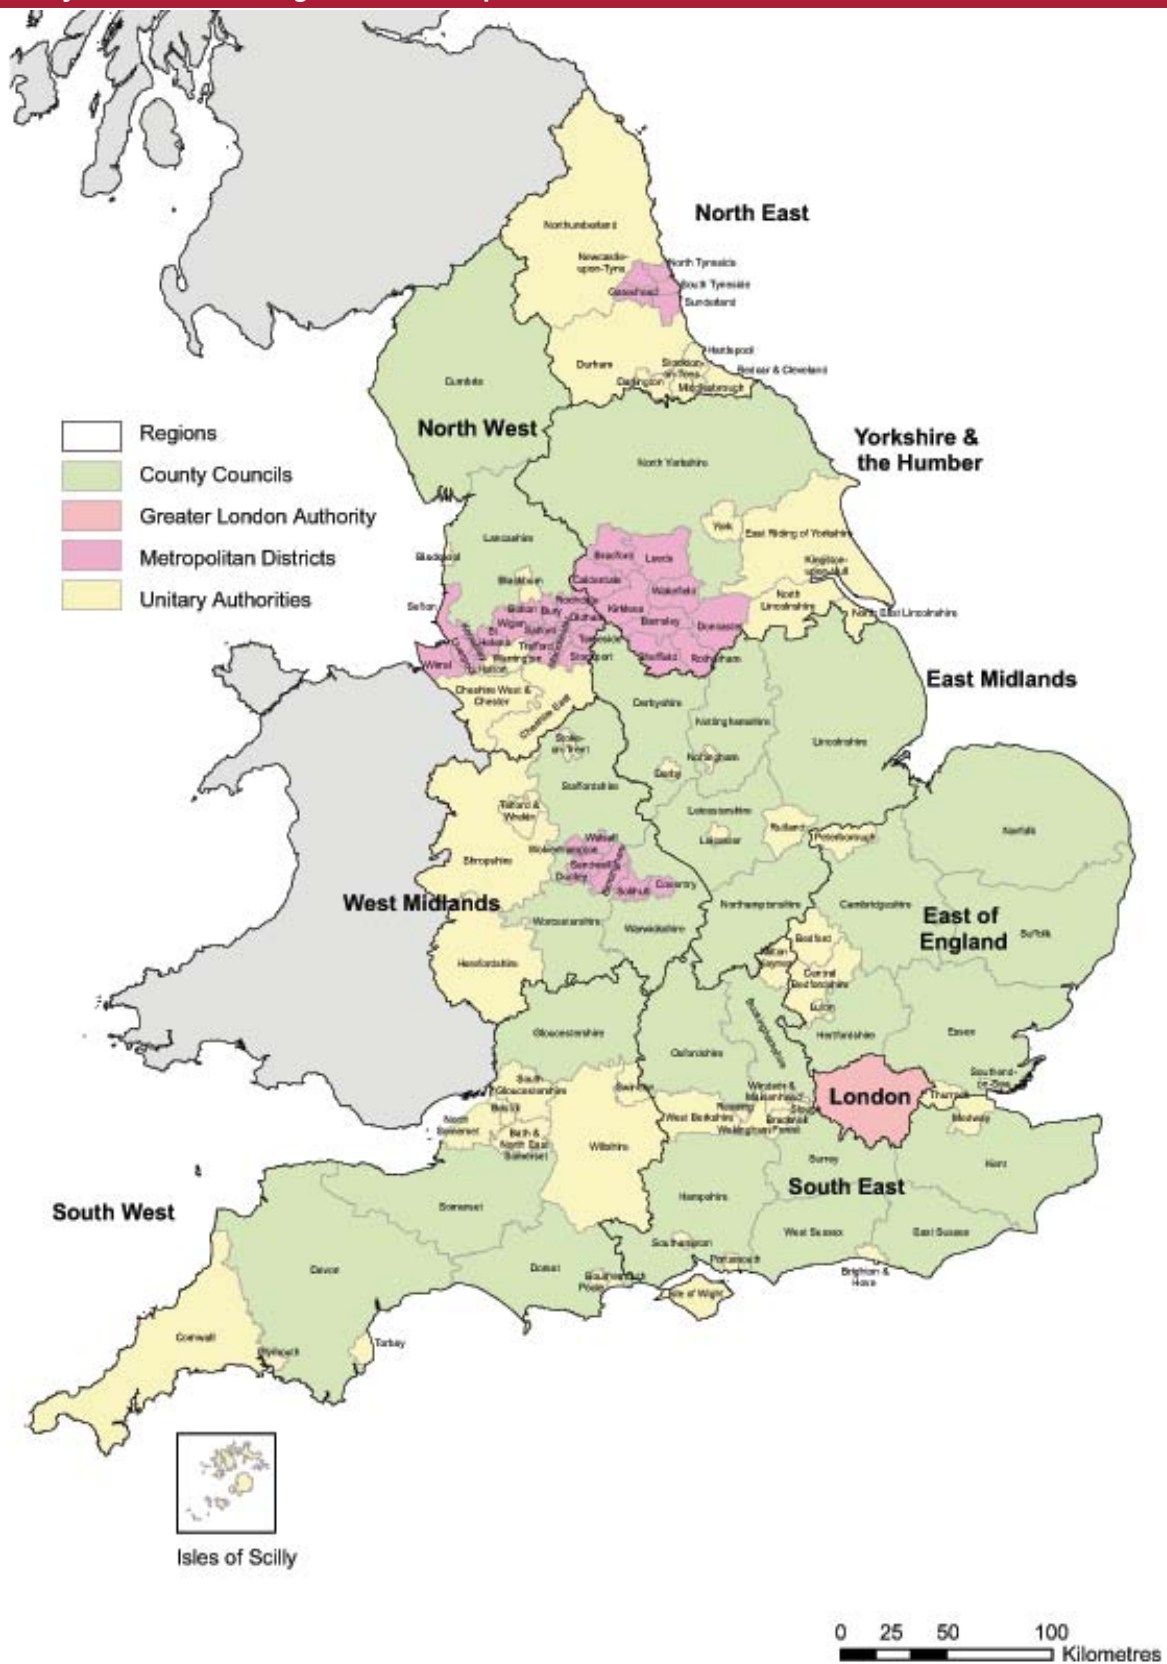

- **Maps of local authority areas in England** **section A1**
- **English local authority structure** **section A2**
- **Parish and town councils** **section A3**
- **Changes in English local authority functions and structure** **section A4**

A1 Maps of local authority areas in England

Chapter 1.3 describes the structure of local government. The following maps show all the individual shire counties and districts, metropolitan districts, unitary authorities, London boroughs and single purpose authorities from whom Communities and Local Government collect local government finance data. **Map A1a** shows all English county and Government Office regional boundaries, which are broken down to districts on **Maps A1b** to **A1f**.

- **All England** **Map A1a**
- **North East** **Map A1b**
- **North West** **Map A1b**
- **Yorkshire and the Humber** **Map A1b**
- **East Midlands** **Map A1c**
- **West Midlands** **Map A1c**
- **South West** **Map A1d**
- **South East** **Map A1e**
- **East of England** **Map A1e**
- **London** **Map A1f**
- **Fire (and passenger transport) authorities** **Map A1g**
- **Police authorities** **Map A1h**
- **Parks and waste authorities** **Map A1i**
- **Rural/urban classification at lower tier level** **Map A1j**
- **Rural/urban classification at higher geographies levels** **Map A1k**

Map A1a: Government office regions; shire counties (upper tier), metropolitan districts and unitary authorities in England as at 1 April 2009

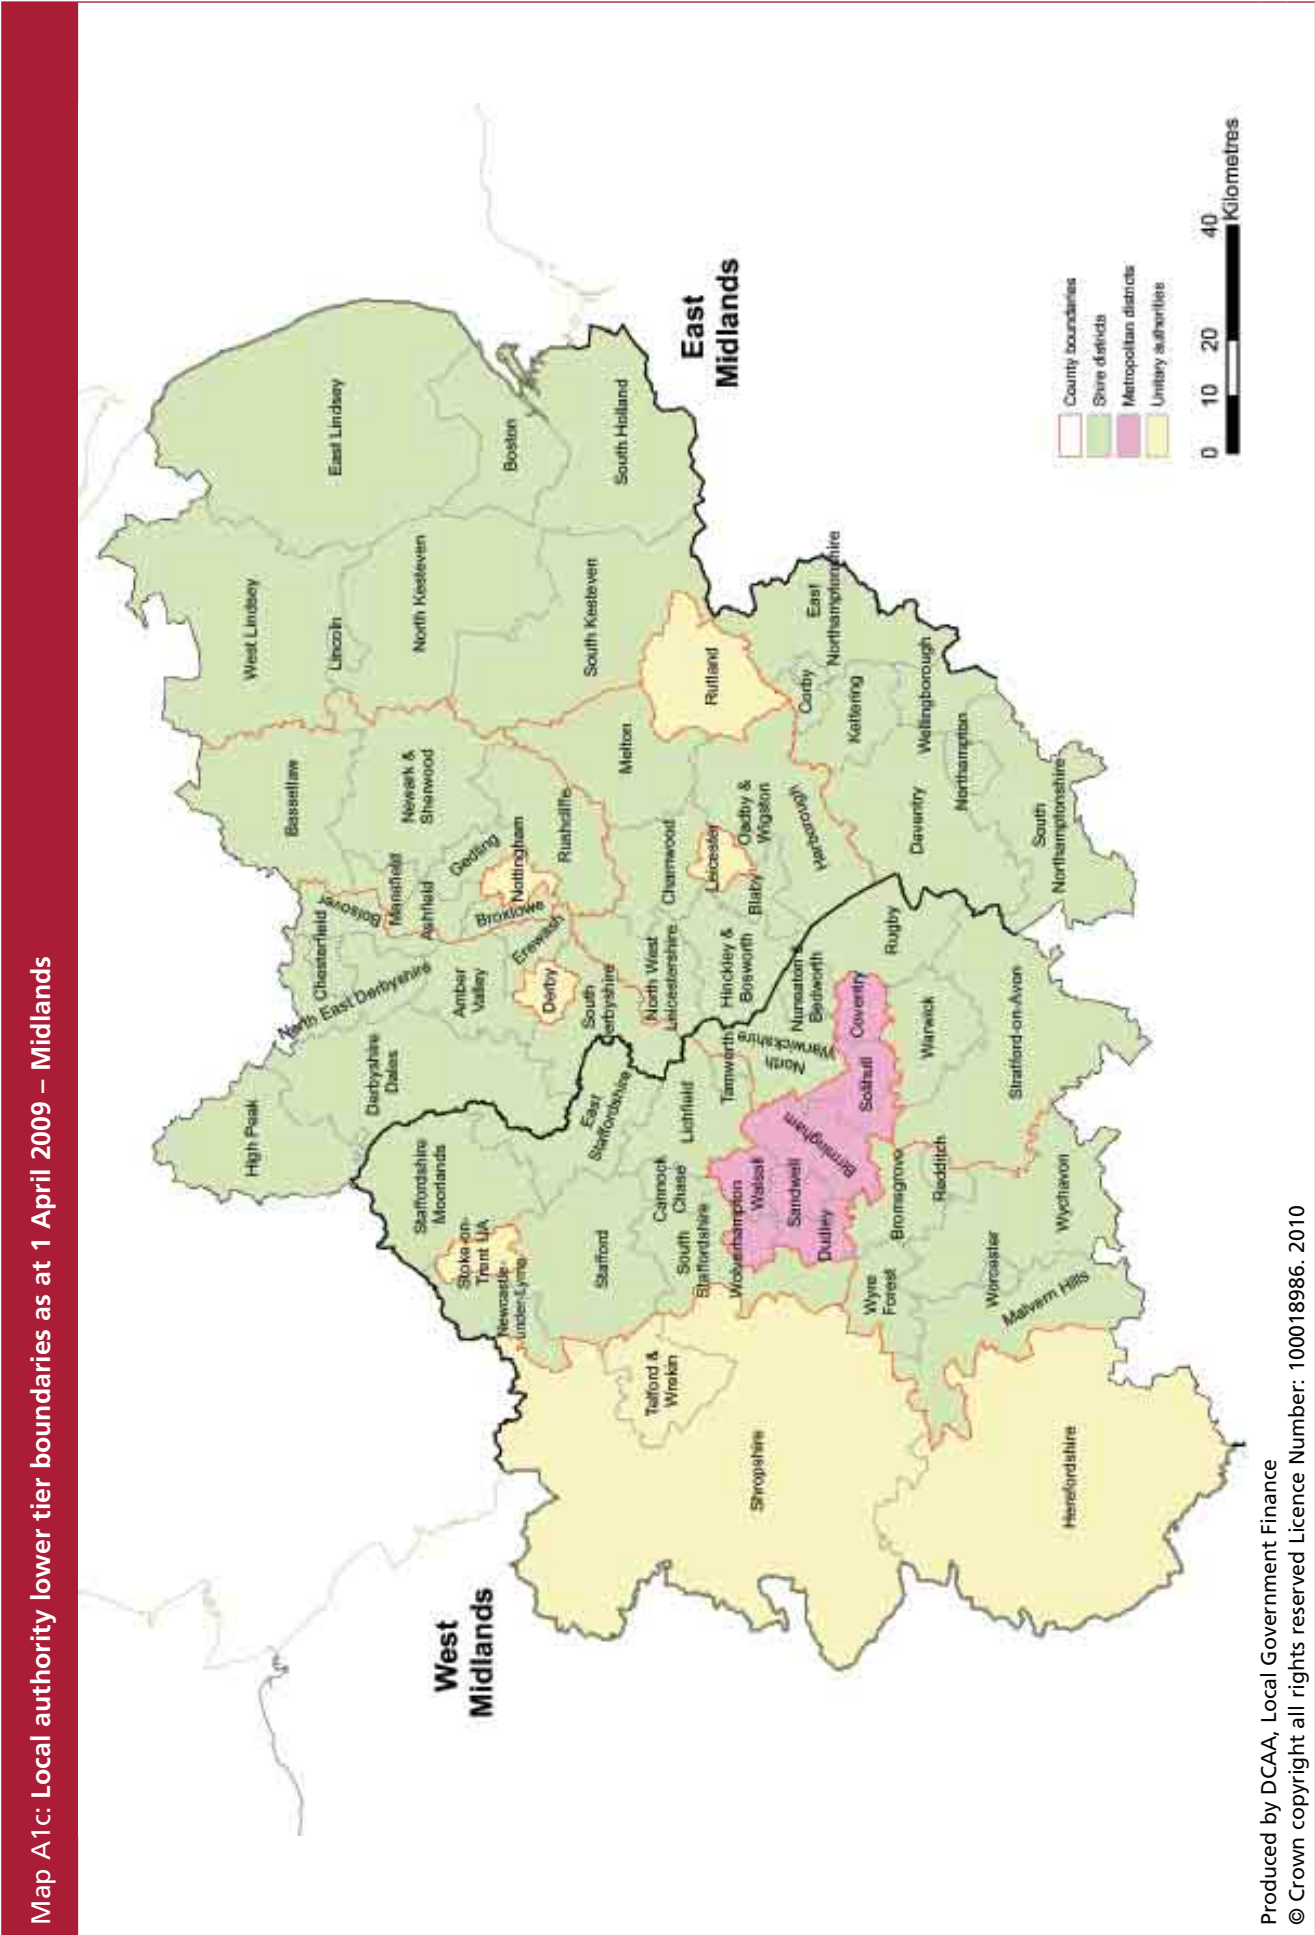

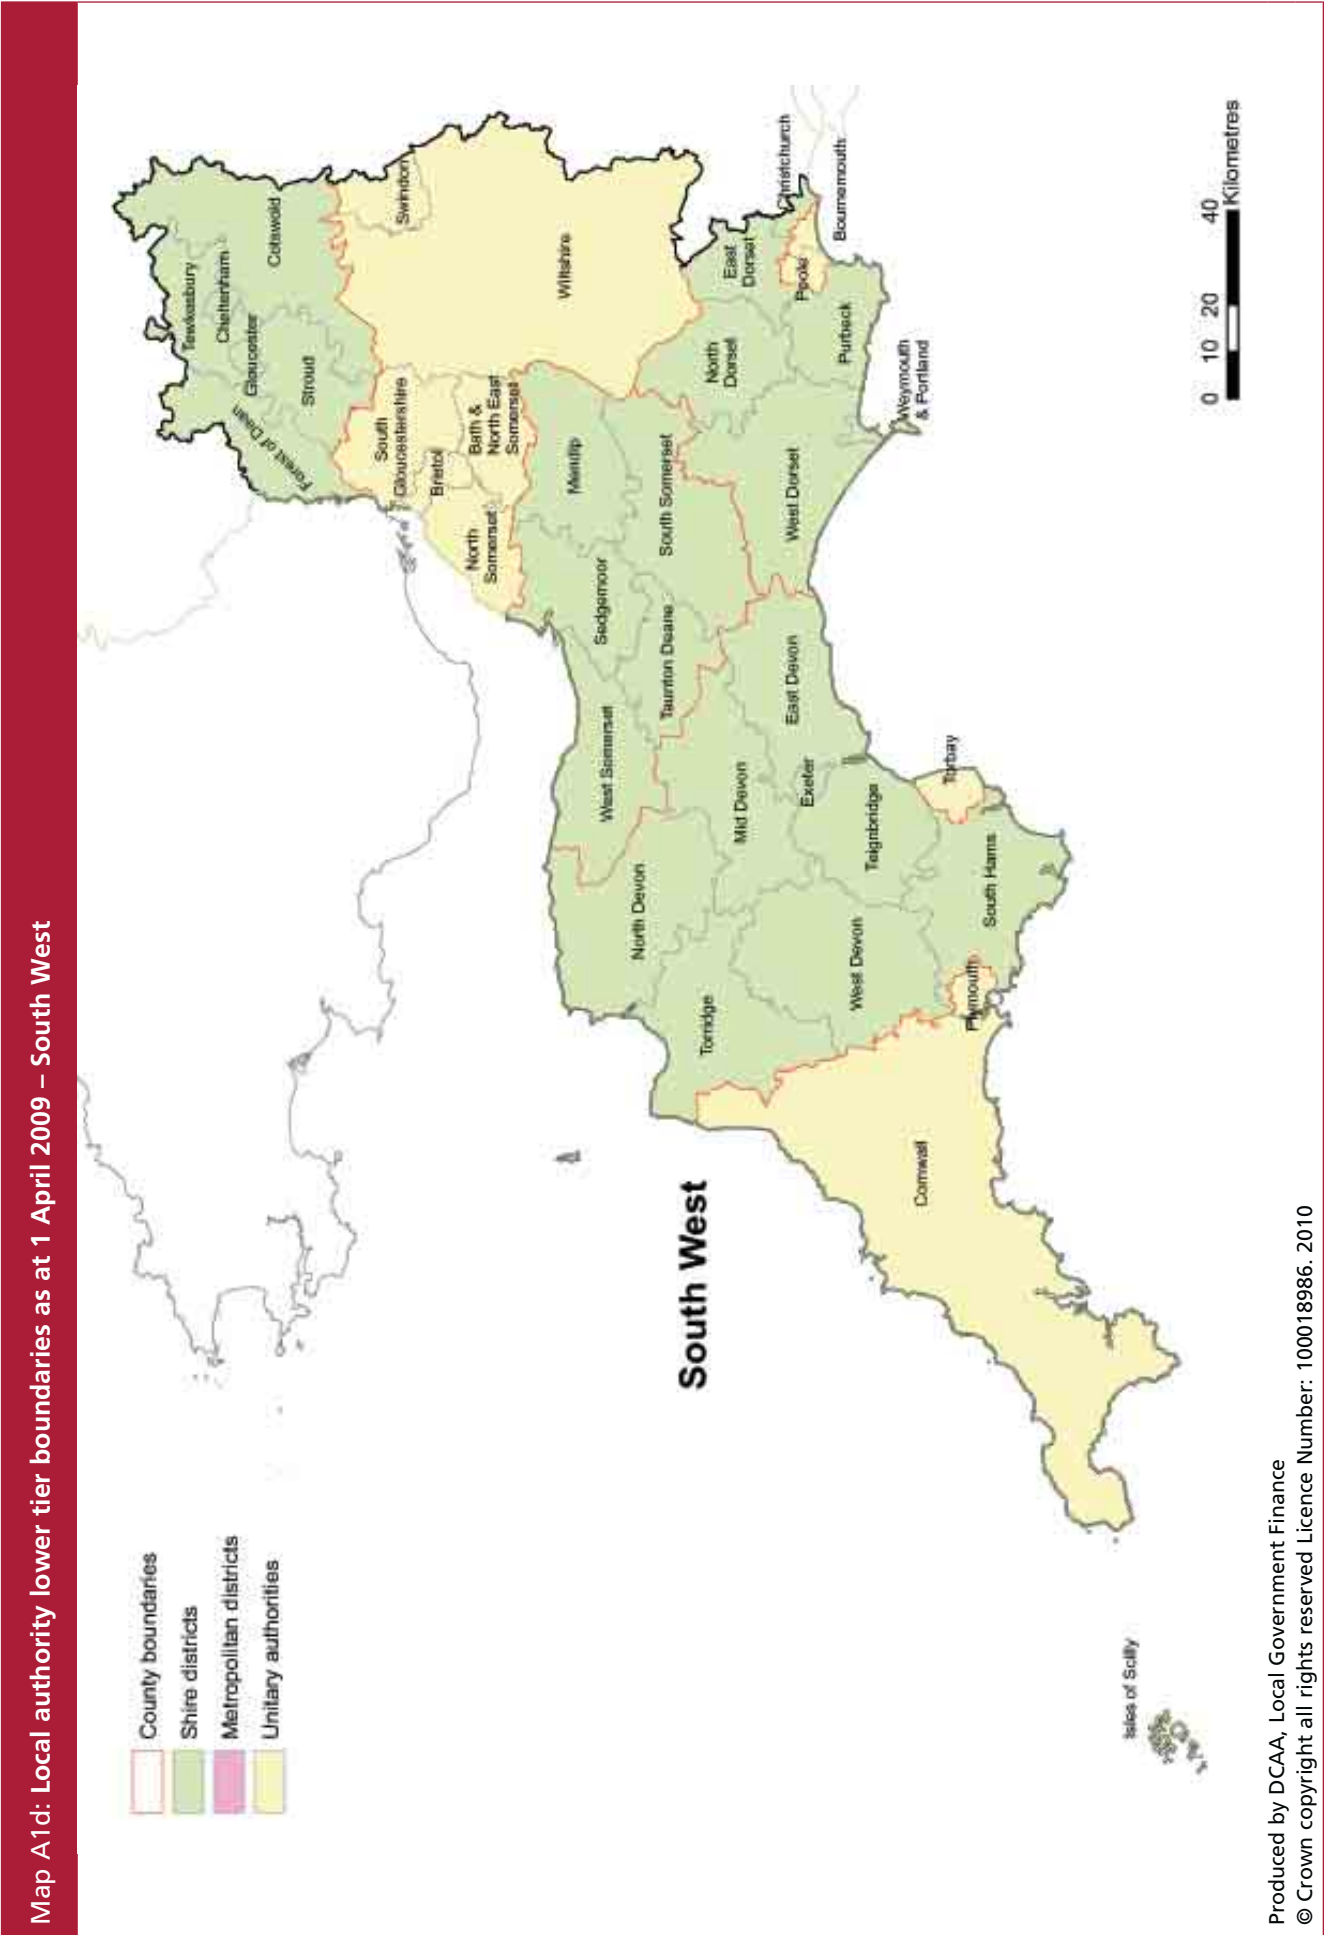

Produced by DCAA, Local Government Finance

Map A1b: Local authority lower tier boundaries as at 1 April 2009 – North

Produced by DCAA, Local Government Finance
© Crown copyright all rights reserved Licence Number: 100018986. 2010

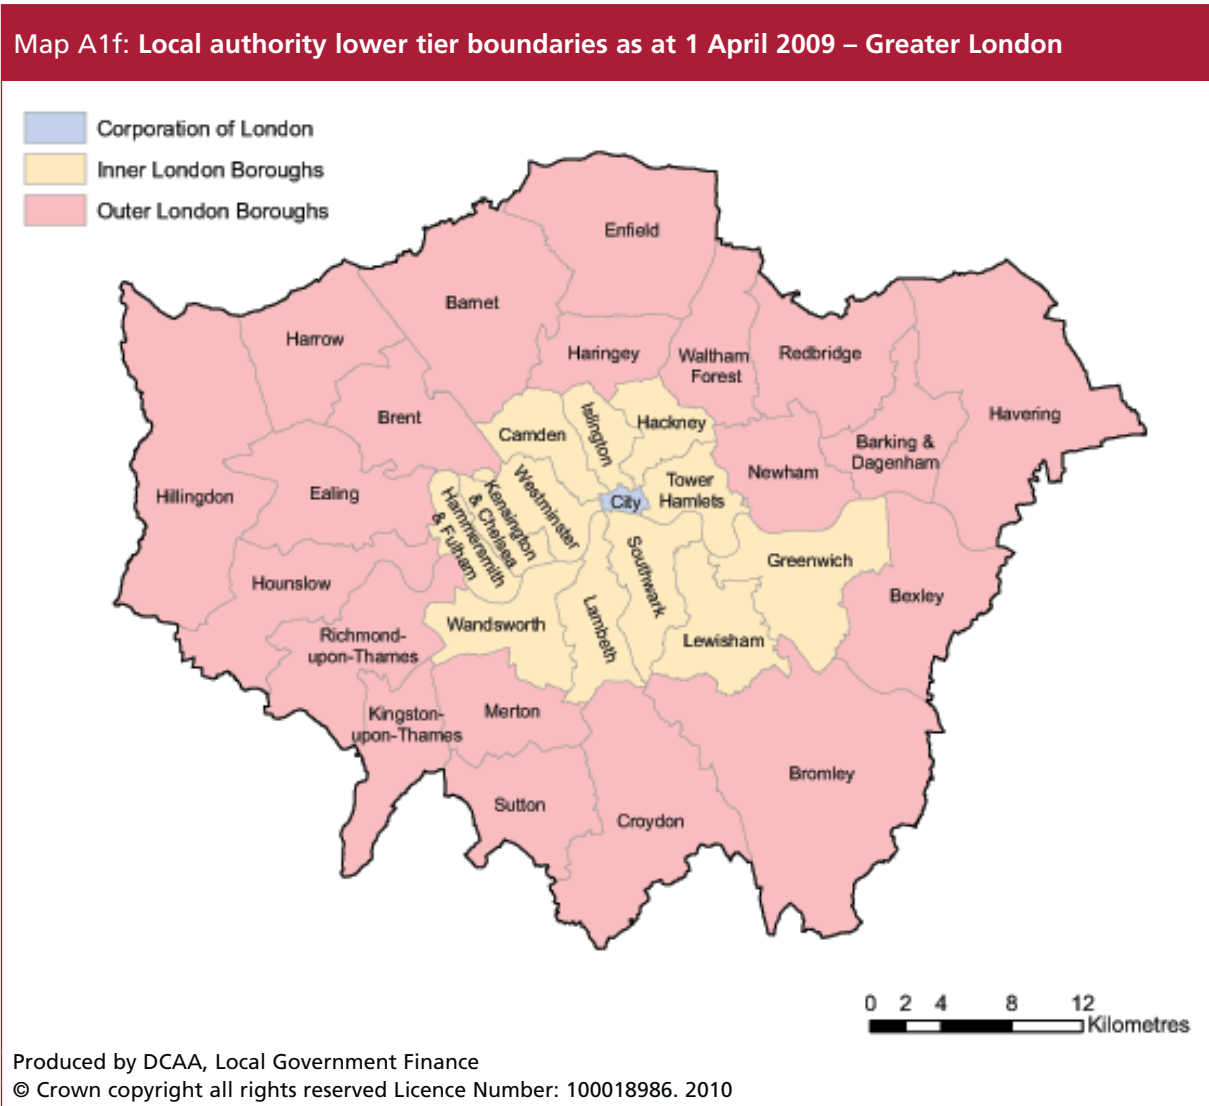

Map A1e: Local authority lower tier boundaries as at 1 April 2009 – South East

Produced by DCAA, Local Government Finance
© Crown copyright all rights reserved Licence Number: 100018986. 2009

This map shows how the London boroughs are grouped into Inner and Outer London areas for the purposes of the local government finance system. The City of London is normally included within statistics for Inner London.

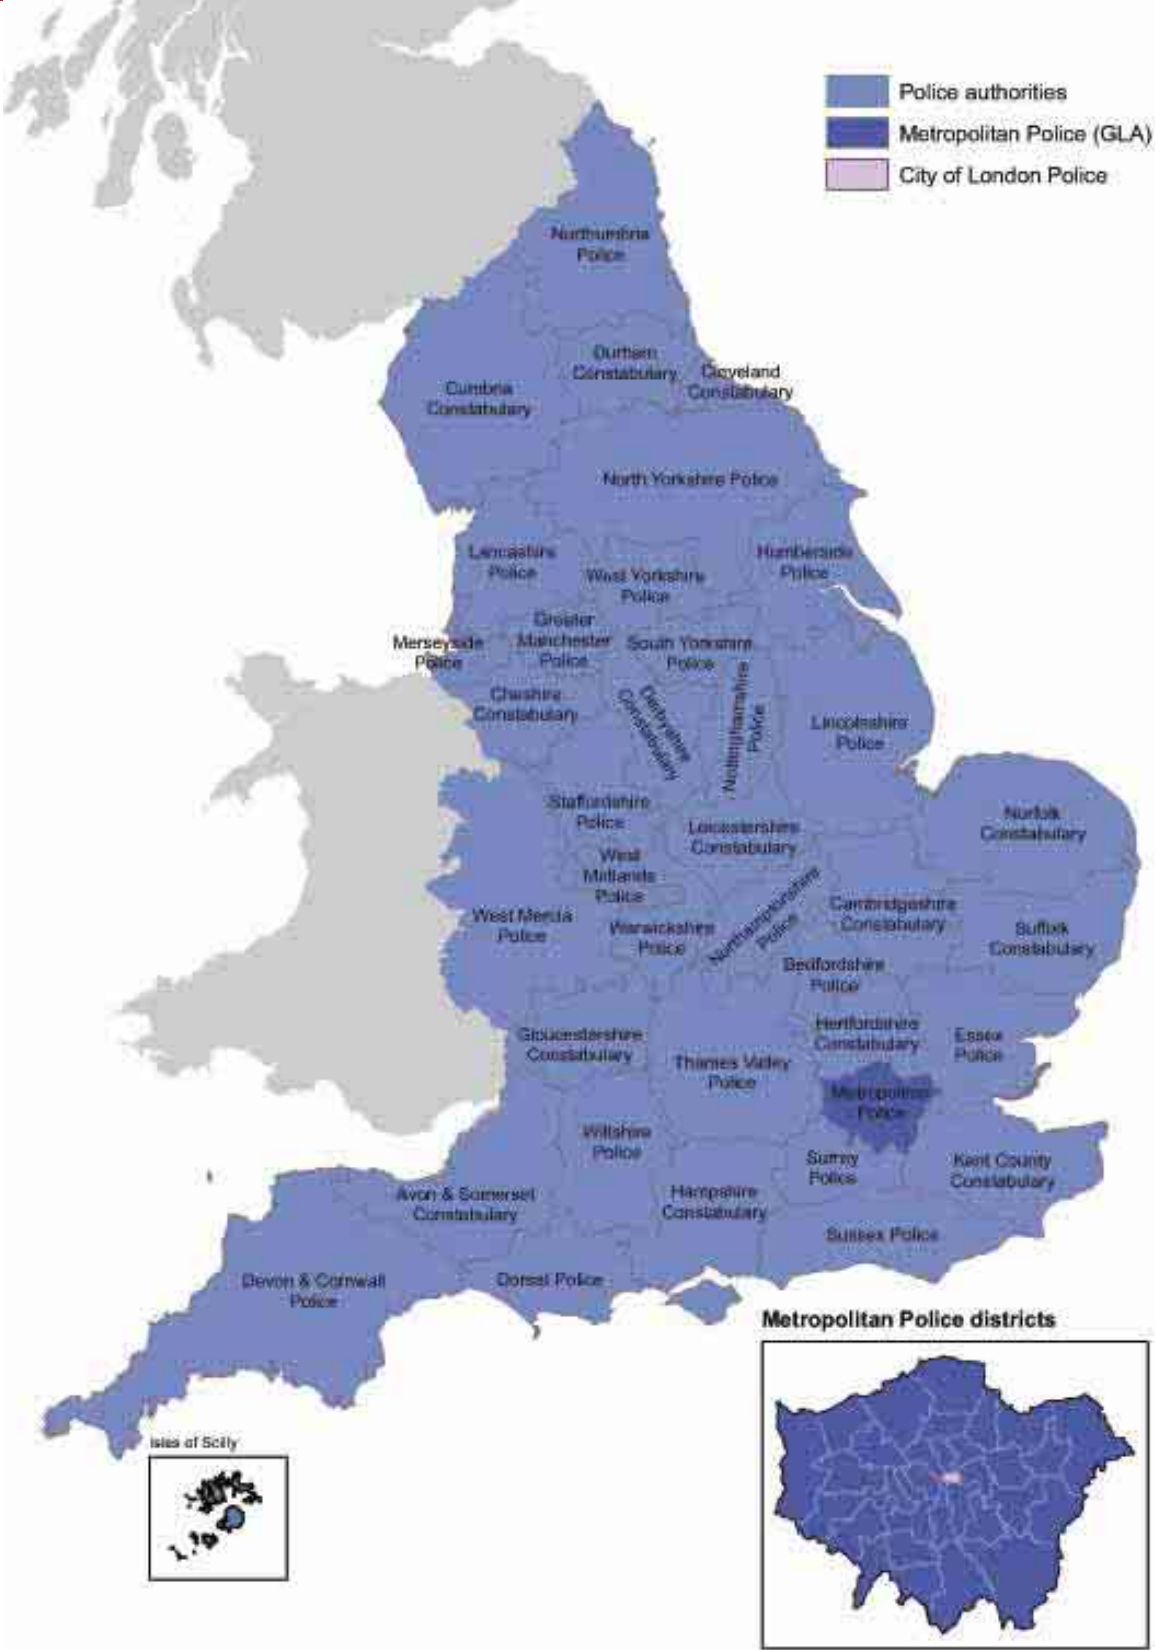

This map also effectively shows **passenger transport authority** areas, which share the same boundaries and names as joint fire authorities.

Map A1g: Fire authorities as at 1 April 2009

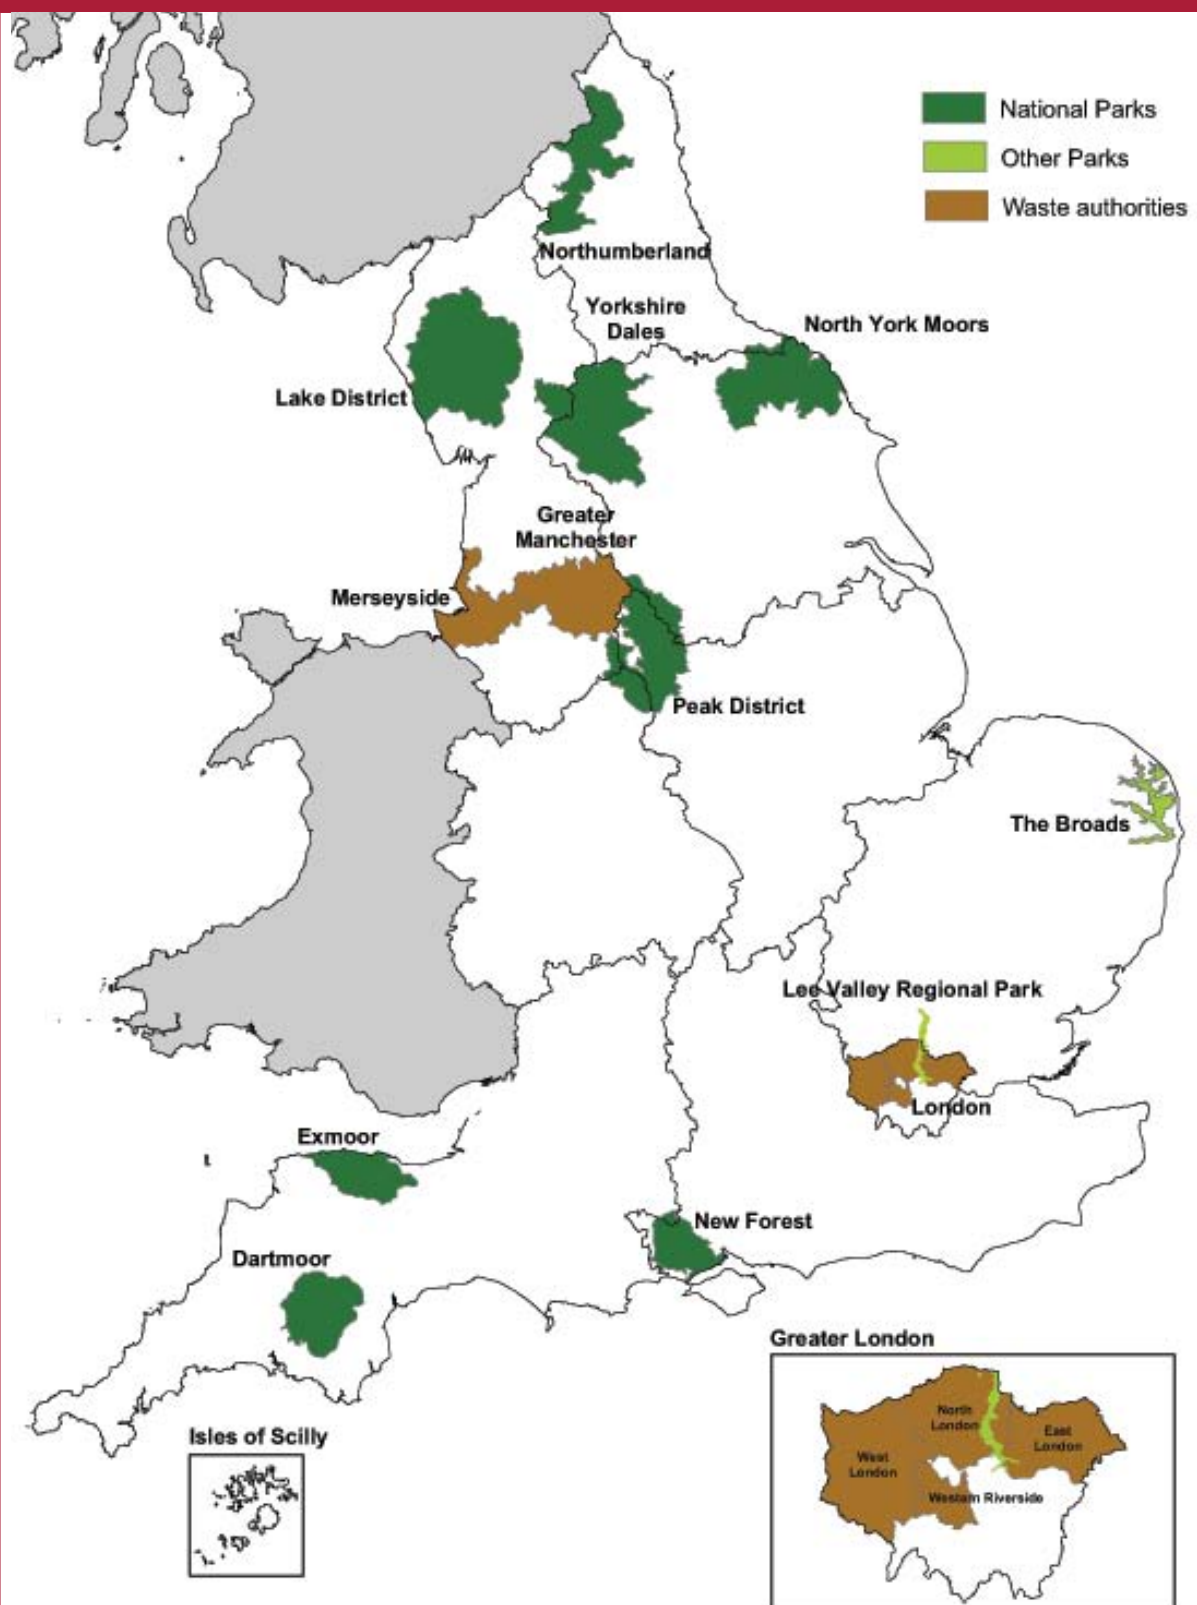

Map A1h: Police authorities as at 1 April 2009

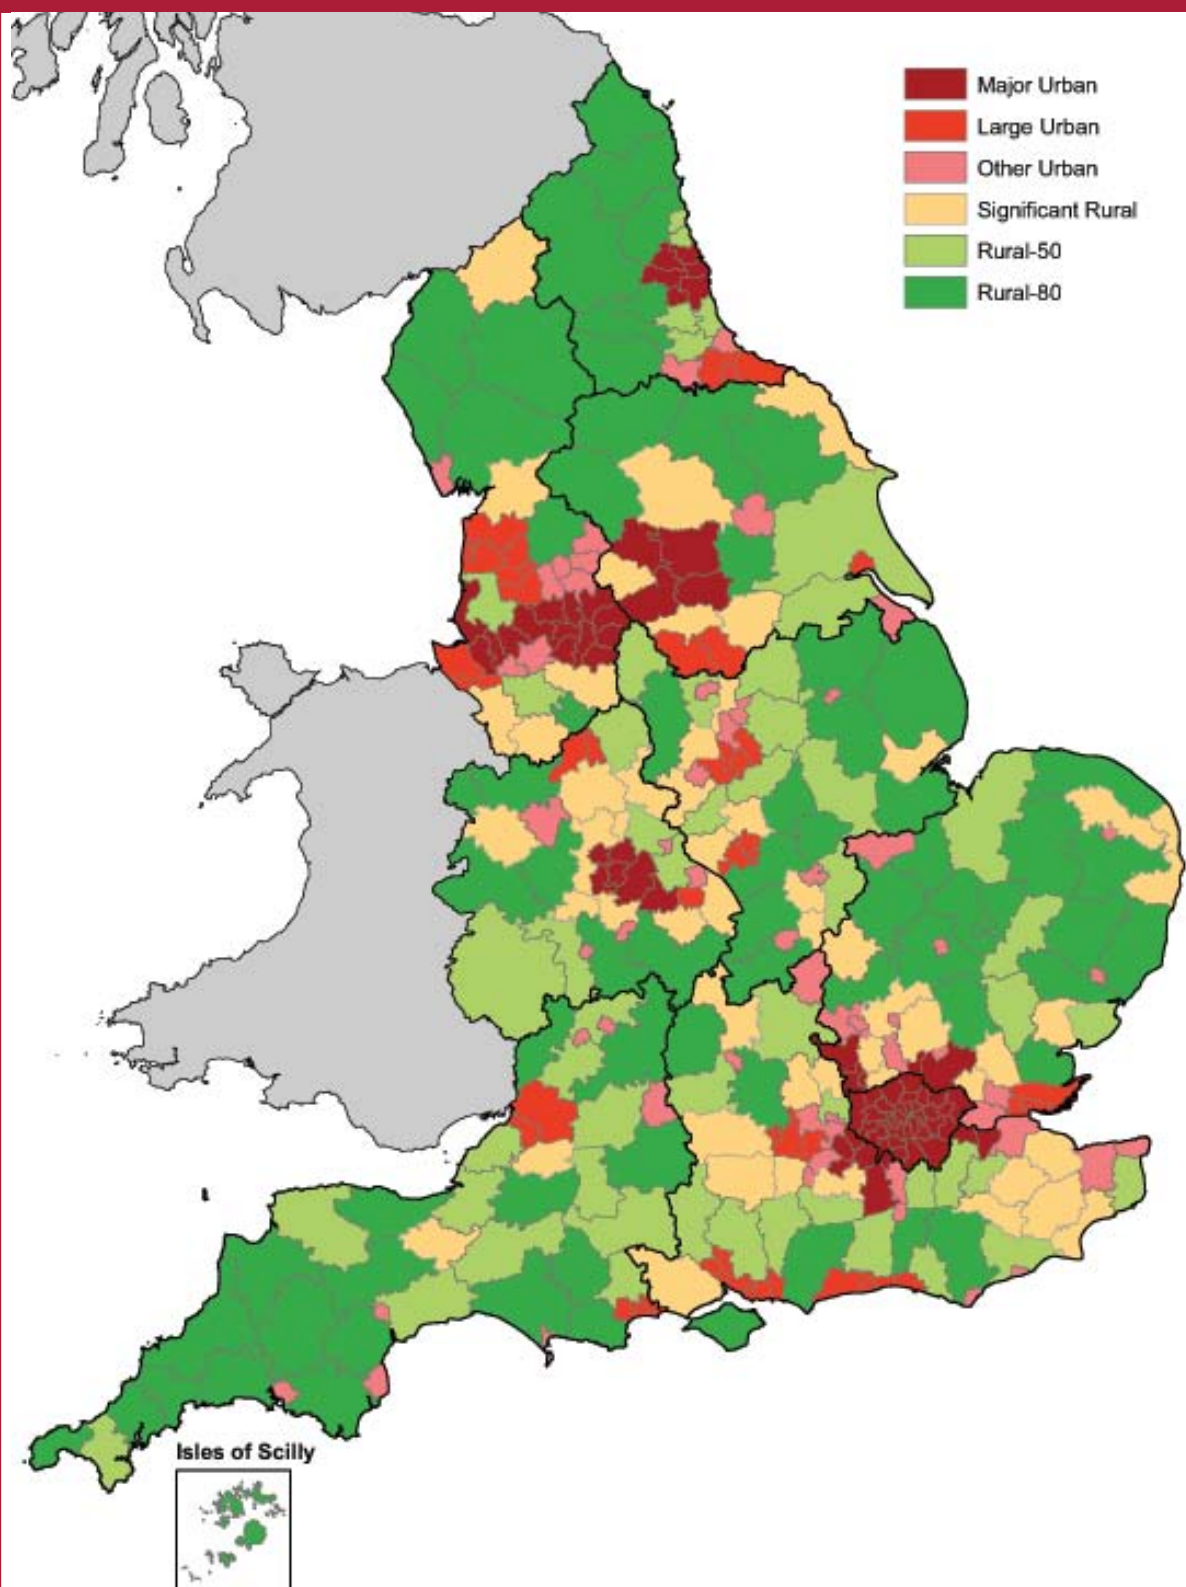

Produced by DCAA, Local Government Finance

Map A1k: Rural/urban classification at higher geographies levels

Produced by DCAA, Local Government Finance

Notes:

Based on higher geographies datasets from the Rural Definition and Local Authority Classification added by Defra in 2008.

(see www.defra.gov.uk/rural/ruralstats/rural-definition.htm for more details)

Rural/urban classification at lower tier level:

Local Authority Classification	Description
Major Urban	Local authorities with either 100,000 people or 50% of their population in urban areas with a population of more than 750,000
Large Urban	Local authorities with either 50,000 people or 50% of their population in one of 17 urban areas with a population between 250,000 and 750,000
Other Urban	Local authorities that have less than 26% of their population in rural settlements (including larger market towns) and do not have a substantial quantity or proportion of their population living within major or large urban areas
Significant Rural	Local authorities with more than 26% but less than 50% of their population in rural settlements and larger market towns
Rural-50	Local authorities with at least 50% but less than 80% of their population in rural settlements and larger market towns
Rural-80	Local authorities with at least 80% of their population in rural settlements and larger market towns

Rural/urban classification at higher geographies levels (using similar criteria to the LA classification):

Classification	% Urban	% Rural
Predominantly Urban	>=74%	<26%
Predominantly Rural	<50%	>=50%
Significant Rural	<74%	>=26%

See: www.defra.gov.uk/rural/ruralstats/rural-definition.htm for full details.

A2 English local authority structure

This annex shows each billing authority as at 1 April 2009 and its relationship with other tiers of local government.

Table A2a: English local authority structure as at 1 April 2009 – Shire Districts

Billing Authority	Upper Tier (County Council)	Police Authority	Fire & Rescue Authority	Region
Adur	West Sussex	Sussex Police	West Sussex CC	South East

A3 Parish and town councils

There are about 10,000 parishes in England, around 9,000 of which have a parish or town council, and there are about 1,000 parish meetings, where there is no council. They vary widely in many ways. Some represent hamlets of fewer than 100 people whereas others represent larger towns, with populations of up to 70,000. Their annual budgets range from under £100 to £2m. The role they play also varies widely. Some play a very modest and local role, but others are more active, with a role very similar to that of some of the smaller district councils. The 'Quality Parish and Town Council Scheme', launched in May 2003, aims to enable parish and town councils to play a greater role in their community. The scheme was reviewed in 2008 and ministers endorsed a revised scheme and new guidance. There are now approaching 700 Quality Parish and Town Councils.

The number of parishes is increasing. Over 230 new ones have been created in England since 1997. The Local Government and Public Involvement in Health Act 2007 has aimed to simplify and speed up the parish review process by devolving the power to create parishes to district councils and to London boroughs, and enables them to respond to petitions from local communities. The Act extended the power to promote well-being to eligible parish and town councils. This power commenced at the end of December 2008 with statutory guidance published in February 2009 to assist councils wishing to use the power.

Central government does not collect information direct from parish or town councils, although information on the total amount of **council tax** required for parish councils (parish **precepts**) in each **billing authority's** area is collected from returns provided by billing authorities. Information on individual councils is, however, collected by auditors. This suggests that about 50 parish or town councils have an annual income or annual expenditure over £1m.

Table A3a gives figures on trends in total precepts since 2005-06 to 2009-10, nationally, by **region** and by area. The total has increased significantly during this period, from £260m to £340m. This is due partly to the creation of new parish and town councils and partly to the increase in activity of some of those that already existed.

Table A3a: Parish precepts

	2005-06	2006-07	2007-08	2008-09	£ million 2009-10
England	259.9	281.7	298.7	321.8	340.4
Parish precept per band D property (£) ^(a)	37	40	42	45	47
By area					
Two-tier shire areas ^(b)	211.9	230.2	244.7	263.7 II	224.3
Unitary shire areas ^(b)	35.8	38.8	40.5	43.7 II	101.3
Metropolitan areas	12.0	12.5	13.2	14.1	14.5
London ^(c)	0.2	0.2	0.3	0.3	0.3
By region					
North East	11.7	12.1	12.9	13.8	16.0
North West	12.1	13.0	14.0	15.5	16.7
Yorkshire & the Humber	17.9	19.0	20.1	21.6	22.5
East Midlands	28.9	32.0	33.1	35.7	37.3
West Midlands	22.2	23.4	24.8	26.5	28.4
East	47.6	51.5	55.5	59.8	62.8
London ^(a)	0.2	0.2	0.3	0.3	0.3
South East	71.8	78.3	82.0	87.6	91.2
South West	47.5	52.2	55.9	61.0	65.2

Source: BR forms

- (a) Parish precept per band D property is calculated by dividing the parish yield by the 'estimated parish tax base. The taxbase is estimated using local authority level Census 2001 'parish population figures.
- (b) Discontinuity between 2008-09 and 2009-10 owing to the creation of nine new unitary authorities (see Annex A)
- (c) There are no parish or town councils in London. The figures relate to local precepts issued by the sub-treasurer of the Inner Temple and the under-treasurer of the Middle Temple in the City of London.

Research in 1992 by Aston Business School found that parish precepts accounted for about 60% of the total expenditure by parish and town councils. If this is still the case, then total expenditure in 2007-08 would have been in the region of £500m.

In addition to council tax, some parish and town councils receive income from interest receipts, sales, fees and charges, **capital receipts** and borrowing. In addition, some of them have received grants (such as from the National Lottery) towards the costs of producing parish plans and parish transport schemes. Section 136 of the Local Government and Public Involvement in Health Act 2007 removed the duty of best value from all parish and town councils with effect from 1 April 2008.

Parishes spend much less, and raise much less in tax, than principal local authorities. But there are many more of them, and they have more councillors overall than principal authorities. Further comparisons between parishes and principal authorities are given in **Table A3b**.

The source used for parish population data in **tables A3b and A3c** has changed from *Local Government Finance Statistics 18*. Information on parish population for these tables now comes from a more robust source than previously, namely the 2001 Census which gives data at a local authority level. In order to make estimates for the total parish population in England (**A3b**) it is assumed that the proportion of the population that are in a parished area stays consistent with the 2001 Census. In order to estimate parish precept per band

D property it is assumed that the proportion of each authority which is covered by parish population again stays consistent with the 2001 Census results.

Table A3b: Comparing parish and town councils and principal local authorities 2008-09

	Parish and town councils ^(a)	Principal local authorities
Number of councils	9,000	456 ^(b)
Approximate number of councillors	70,000	20,000
Population covered: number ^(c)	19 million	51 million
Percentage of England total ^(d)	37%	100%
Spending funded by council tax ^(e) :		
£	323 million	24,436 million
£ per Band D property ^(e)	45	1,355

(a) Most of the figures for parish and town councils are estimates.

(b) This is the sum of the 354 billing authorities and 102 major precepting authorities shown in table 1.6A in Chapter 1.

(c) Some of the population and spending shown for parish and town councils is in parished areas where there is a parish meeting instead of a parish or town council. Parish population figures are derived from the 2001 Census

(d) The population in parished areas comprises about half of the population of England outside London and metropolitan areas. There are only a few parished areas in metropolitan areas, and none in London.

(e) The amounts for parish and town councils and principal local authorities do not sum to the national average area Band D council tax (£1,373). This is because the figure for parish and town councils is calculated as an average across parished areas only, rather than across the whole of England.

A4 Changes in English local authority functions and structure

This annex should be read in conjunction with the sections at the end of **Annexes C** and **D**, which summarise changes in the local government revenue and capital finance systems in recent years respectively.

Changes in the volume of local authority activity (and hence in expenditure and employment) may be associated with the addition or removal of functions, as detailed below; changes in demand for obligatory functions (for example, changes in the number of school-age children); policy changes in relation to discretionary functions (for example, the provision of new leisure centres); or changes in ways of providing the same services (for example, the introduction of computers).

BEFORE THE 1970S

Before the 19th century, local government provided few nationwide services: the poor law and highway maintenance (administered mainly by parishes) and the local courts and prisons (administered mainly by county quarter sessions) were the main ones. Other local services were provided as a result of local initiative, based mainly on local Acts of Parliament.

In the 19th century, there was a gradual development of systematic, nationwide provision of local government services. Some of these were the result of initiatives by central government (such as most of the public health services) whilst others were developed by local initiatives (such as the municipal

gas and electricity undertakings). Some were the result of the work of non-governmental organisations, later taken over by local government bodies (such as primary education).

As the 19th century progressed, the tendency to create new specialised agencies for each new service was replaced by a tendency to concentrate services, especially after the creation of county councils in 1888 and county district councils in 1894. At the same time, central government recognised increasingly the need to ensure uniform national standards and created the methods to do so, by guidance, conditional grants, inspectorate appeals systems and default powers.

The introduction of more and more local services was counterbalanced by the transfer of some services to central government (for example, prisons (1872), trunk roads (1930), gas and electricity (1947) and hospitals (1948)). In 1929, the abolition of the Boards of Guardians consolidated local government services in the hands of, in large towns, county borough councils and, in London and the metropolitan counties, the London County Council and metropolitan boroughs. Outside these areas the abolition of the Boards of Guardians consolidated local government services for county councils to county district councils and (in rural districts) parish councils and meetings. This structure endured until, in Greater London, the reform of 1965 (when the Greater London Council was formed) and elsewhere the reforms of 1974.

SINCE 1970

1973	Responsibility for upper-tier criminal courts (assizes and quarter sessions) transferred to central government.
1 April 1974	Local government reorganisation outside London: new structure of six metropolitan counties and 39 shire counties, divided into 36 metropolitan and 296 non-metropolitan districts, introduced. Responsibility for water and sewerage transferred to water authorities. Ambulance and some health services transferred to health authorities.
1 April 1985	London Regional Transport transferred from the local authority sector.
1 April 1986	Abolition of Greater London Council and metropolitan county councils. In London, functions transferred to City of London, London Boroughs, Inner London Education Authority (ILEA), the London Fire and Civil Defence Authority, the London Waste Regulation Authority, waste disposal authorities and other bodies such as the London Planning Advisory Committee. In metropolitan areas, functions passed to metropolitan districts, waste disposal authorities (in Merseyside and Greater Manchester) and joint authorities for police, fire and civil defence, and transport. Residuary bodies were set up to wind up the affairs of the abolished councils.

26 October 1986	Responsibility for municipal bus services transferred to public transport companies.
1986	Introduction of devolved budgets for schools, resulting in the creation of schools as semi-independent institutions.
1 April 1987	Responsibility for municipal airports (except Manchester) transferred to public airport companies.
1 April 1989	Funding of polytechnics and higher education colleges transferred to the Polytechnics and Colleges Funding Council (PCFC).
1 Sept 1989	The first Grant Maintained schools came into existence following the 1988 Education Reform Act. These schools were independent of local authority control. They were funded by central government through the Funding Agency for Schools. Part of local authority expenditure on education consisted of payments back to the government for the funding of these schools.
1 April 1990	Inner London Education Authority (ILEA) abolished. Responsibility for education in Inner London transferred to London boroughs.
1 July 1992	Local Government Commission set up to review the structure of local government in England.
1 April 1993	Local authorities became responsible for implementing new legislation on Community Care. Funding of colleges of further education and sixth form colleges transferred from local authorities to the Further Education Funding Council (FEFC).
1 April 1995	The Isle of Wight unitary authority replaced the county council and two district councils. New police authorities were set up in the shire areas taking all policing responsibilities away from county councils.
1 April 1996	Unitary authorities were created in Avon, Cleveland, Humberside and North Yorkshire, replacing both shire districts and Avon, Cleveland and Humberside county councils. New combined fire authorities were created in each of these four authorities. Waste regulation became the responsibility of the Environment Agency, resulting in the abolition of the London Waste Regulation Authority.
1 April 1997	Unitary authorities were created in Bedfordshire, Buckinghamshire, Derbyshire, Dorset, Durham, East Sussex, Hampshire, Leicestershire, Staffordshire and Wiltshire, replacing some of the shire districts in these areas. New combined fire authorities were also created in these areas.

1 April 1998	Unitary authorities were created in Berkshire, Cambridgeshire, Cheshire, Devon, Essex, Hereford and Worcester, Kent, Lancashire, Nottinghamshire and Shropshire, replacing some shire districts and Berkshire County Council. New combined fire authorities were also created in each of these areas.
1 April 1999	Funding of Grant Maintained schools transferred to local authorities.
3 July 2000	<p>A new Greater London Authority (GLA) was created which consists of a directly elected Mayor, a separately elected Assembly and about 400 support staff, and four functional bodies. The four functional bodies are:</p> <ul style="list-style-type: none"> (i) The Metropolitan Police Authority (MPA) oversees policing in London (excluding the City). This was an entirely new local authority, the Receiver for the Metropolitan Police having been abolished. (ii) The London Fire and Emergency Planning Authority (LFEPA) is essentially a reconstitution of the old London Fire and Civil Defence Authority (LFCDA). (iii) Transport for London (TfL) has strategic responsibility for transport in London; TfL also has responsibility for London buses and it is also highway and traffic authority for certain major roads in London. (iv) The London Development Agency (LDA) promotes economic development and regeneration in London.
1 April 2001	Magistrates' courts in London became the responsibility of the Greater London Magistrates' Court Authority.
1 April 2002	Funding of sixth form education transferred from local authorities to the Learning and Skills Council (LSC).
15 July 2003	Control of London Underground was transferred from the Department for Transport to Transport for London.
1 April 2004	Combined fire authorities in shire areas become major precepting authorities, having previously been financed by payments from the county or unitary councils in their area.
1 March 2005	The New Forest National Park came into existence.
1 April 2005	Responsibility for magistrates' courts transferred from local authorities to Her Majesty's Courts Service.
1 April 2006	The New Forest National Park became fully functional. New financial arrangements for police and firefighter pensions took effect.

- 1 April 2009 Unitary authorities created in Cornwall, Durham, Northumberland, Shropshire and Wiltshire. Cheshire split into two new unitary authorities, 'Cheshire East' and 'Cheshire West and Chester'; Bedfordshire split into two new unitary authorities, 'Bedford Borough' and 'Central Bedfordshire'.
- 1 April 2010 The South Downs National Park became a shadow authority able to decide on key strategies and policies as well as the type of organisation and staff needed to carry out its purposes and duty. This will become a full authority on 1 April 2011.

ANNEX B

Council tax exemptions

This annex gives detailed information about council tax exemptions relating to **Chapter 2**.

Table B1 gives figures for each class of exemption. The totals for each year are consistent with those given in **Table 2.2m** in **Chapter 2**.

Table B1: Number of dwellings exempt from council tax by class of exemption 2005 to 2009						
Class of exemption	Dwellings (thousands) ^(a)					As % of exemptions
	2005	2006	2007	2008	2009	
Class A	35.3	35.4	43.6	39.7	32.0	4.1
Class B	1.0	1.1	1.4	1.6	1.9	0.2
Class C	253.7	273.9	281.9	274.5	281.3	35.9
Class D	1.4	1.5	1.6	1.8	1.9	0.2
Class E	26.8	26.3	25.8	30.6	32.7	4.2
Class F	69.9	67.2	66.7	73.1	69.6	8.9
Class G	14.2	14.4	15.2	12.7	11.7	1.5
Class H	1.0	0.9	1.0	1.1	1.1	0.1
Class I	3.1	2.9	2.7	3.1	3.3	0.4
Class J	0.6	0.7	0.7	0.7	0.8	0.1
Class K	0.8	0.9	0.7	0.6	0.6	0.1
Class L	3.3	5.3	7.3	15.9	15.5	2.0
Class M	23.8	26.1	28.1	31.6	33.3	4.2

Class V	3.6	3.7	3.9	4.0	3.9	0.5
Class W	5.9	6.3	6.5	6.9	7.1	0.9
Total	709.8	734.7	761.9	777.0	784.2	100.0
Source: CTB(Supplementary) return						
(a) As at 19 September 2005, 18 September 2006, 17 September 2007 15 September 2008 and 14 September 2009						

Table B2 gives the definition for each class of council tax exemption.

Table B2: Definitions of the council tax exemption classes	
Class A	Vacant dwellings where major repair works or structural alterations are required, under way or recently completed (up to twelve months).
Class B	Unoccupied dwellings owned by a charity (up to six months).
Class C	A vacant dwelling (i.e. empty and substantially unfurnished) (up to six months).
Class D	A dwelling left unoccupied by people who are in prison.
Class E	An unoccupied dwelling which was previously the sole or main residence of a person who has moved into a hospital or care home.
Class F	Dwellings left unoccupied by deceased persons from the date of death until up to six months after probate or letters of administration have been signed.
Class G	An unoccupied dwelling where the occupation is prohibited by law.
Class H	Unoccupied clergy dwellings.
Class I	An unoccupied dwelling which was previously the sole or main residence of a person who is the owner or tenant and has moved to receive personal care.
Class J	An unoccupied dwelling which was previously the sole or main residence of a person who is the owner or tenant and who has moved in order to provide personal care to another person.
Class K	An unoccupied dwelling where the owner is a student who last lived in the dwelling as their main home.
Class L	An unoccupied dwelling which has been taken into possession by a mortgage lender.
Class M	A hall of residence provided predominantly for the accommodation of students.
Class N	A dwelling which is occupied only by students, the foreign spouses of students, or school and college leavers.
Class O	Armed forces' accommodation. (Included as exempt dwellings rather than chargeable dwellings because contributions in lieu will be paid in respect of them, allowed for in line 20 of the CTB form).
Class P	A dwelling where at least one person who would otherwise be liable has a relevant association with a Visiting Force.
Class Q	An unoccupied dwelling where the person who would otherwise be liable is a trustee in bankruptcy.
Class R	Unoccupied caravan pitches and boat moorings.
Class S	A dwelling occupied only by a person, or persons, aged under 18.
Class T	An unoccupied dwelling which forms part of a single property which includes another dwelling and may not be let separately from that dwelling, without a breach of planning control.
Class U	A dwelling occupied only by a person, or persons, who is or are severely mentally impaired who would otherwise be liable to pay the council tax or only by one or more severely mentally impaired persons and one or more students, students' foreign spouses and school and college leavers.
Class V	A dwelling in which at least one person who would otherwise be liable is a diplomat.
Class W	A dwelling which forms part of a single property, including at least one or other dwelling, and which is the sole or main residence of a dependent relative of a person who is resident in the other dwelling.

ANNEX C

General fund revenue accounts

This annex gives detailed information about local authority **general fund revenue account** expenditure relating to **Chapter 3**. The information is represented in the same way as it is returned to Communities and Local Government and, generally, at the same level of detail. It forms the basis of many of the summary tables in the main part of this publication.

Some notes on the figures in the tables are given in this annex, but the more extensive notes, which accompany each form sent to local authorities, have not been reproduced here. The most recent year's forms and notes are available from the Department's internet site at:

<http://www.communities.gov.uk/localgovernment/localregional/localgovernmentfinance/statistics/revenueexpenditure/>

Annex C is divided into the following sections:

- **Detailed revenue outturn data** **section C1**
 - from **RO**, **TSR** and **SAR** forms 2008-09
- **Revenue outturn summary and grants** **section C2**
 - from **RS** and **RG** forms 2008-09
- **Revenue account net expenditure summaries** **section C3**
 - by **region** and **LA class** 2008-09
- **Revenue account budget estimates** **section C4**
 - from **RA** and **SG** forms 2008-09
- **Changes to English local government revenue finance systems** **section C5**

C1 Detailed revenue outturn data

This section gives 2008-09 **General Fund Revenue Account** and **Trading Services Revenue Account** outturn information from the *Revenue Outturn (RO)* returns:

	source	tables
Education services	RO1	C1a
Highways, roads and transport services	RO2	C1b
Social care	RO3	C1c
Housing services (excluding Housing Revenue Account)	RO4	C1d
Cultural, environmental and planning services	RO5	C1e
Protective, central and other services	RO6	C1f
Trading services Revenue Account	TSR	C1g
Subjective analysis	SAR	C1h

Important note

In this section all of the data in the tables were collected on a **Financial Reporting Standard 17 (FRS17)** basis. Figures in these tables may therefore be inconsistent with those in **chapter 3**. More information on FRS17 can be found in **section 3.1**.

DEFINITIONS OF COLUMN HEADINGS IN REVENUE OUTTURN TABLES

The column headings in **Tables C1a to C1h** are standard subjective headings which are defined, subject to CLG requirements, in accordance with the *Best Value Accounting Code of Practice (BVACOP) Recommended Standard Subjective Analysis (Section 1.7 Chapter 1)* where full details will be found. Grants inside and outside **AEF** are not regarded as income and are not included in total income figures (see **Table C2b**).

SUBJECTIVE ANALYSIS

The subjective analysis in **Table C1h** shows the labour, goods and services purchased by local authorities, what the expenditure was on rather than what it was for. **Table C1h** is based on the results of the *subjective analysis return (SAR)*, a sample survey of 143 local authorities in 2008-09. The sample results are grossed up to the local authority population using information from the *revenue outturn* forms. See also **section 3.5**.

Table C1a: Revenue Outturn Education services (RO1) 2008-09

	EXPENDITURE			INCOME			Net Total Cost (excluding specific grants)
	Employees	Running expenses	Total expenditure	Sales, fees & charges	Other income	Total income	
Schools

C2 Revenue outturn summary and grants

Table C2a gives 2008-09 **general fund revenue account** outturn information from the *Revenue Summary (RS)* return. The expenditure recorded on each of the service lines of this return is on the basis of **net current expenditure** as defined in **section 3.1**. The *RS* return gives a summary of the information collected on individual *RO* returns as well as a detailed breakdown of income and expenditure not recorded on *RO* returns, including items which cannot be allocated to any single service. **Tables C2b** and **C2c** give a subjective summary of Total Service Expenditure across all the *RO* returns.

The data in **Tables C2a** and **C2c** were collected on a financial reporting standard 17 (FRS17) basis. More information on FRS17 can be found in **section 3.1**.

Table C2d gives 2008-09 net current expenditure by service on both FRS17 and non-FRS17 bases. These data are from the *RS* return.

Table C2b gives 2008-09 specific and special grants outturn information from the *revenue grants (RG)* return.

Table C2a: Revenue Outturn Summary (RS) 2008-09

		£ thousand		
		Net current expenditure	Capital charges	Net total cost excluding specific grants

952	Interest and investment income (-): external receipts and dividends	-48,129		
953	Appropriations to(+)/ from(-) financial instruments adjustment account	-133,050		
<p>(a) Pensions reserves represent the liabilities authorities are judged to have incurred under Financial Reporting Standard 17 for future pensions additional to the contributions made to pension funds. The movement during the year on the pensions reserve reflects the appropriation from the revenue account shown at line 788 above together with actuarial gains and losses on pension fund assets and liabilities (which are not taken to the revenue account)</p> <p>(b) Where capital expenditure has been financed by capital grant, the grant is credited to the income and expenditure account over the useful life of the asset in line with the depreciation charge</p>

647	Probation Loan Charges	1,130
648	Reform Deal	5,112
650	Additional Rule 2 Grant	123,445
669	LFEPA Civil Contingencies	625
698	Other grants within AEF ^(a)	769,736
	TOTAL REVENUE GRANTS WITHIN AEF (Total of lines 102 to 698)	
699	(Transferred to RS line 797 as income)	42,925,950
Grants outside Aggregate External Finance (AEF)		
708	Further Education funding from Learning and Skills Council (LSC) - 19+ funding	62,020
711	Education Maintenance Allowance	100
712	Further Education funding from Learning and Skills Council (LSC) - 16-18 funding	207,420
713	Higher Education Funding Council (HEFC) Payments	20,155
715	Adult and Community Learning from Learning and Skills Council (LSC)	286,770
716	Sixth forms funding from Learning and Skills Council (LSC)	1,901,301
718	Mandatory Student Awards	5,289
719	DVLA Trading Fund	0
720	Free Flowing Cities	0
721	Mersey Travel	78,607
741	Council Tax Benefit: subsidy	3,517,263
745	Mandatory Rent Allowances: subsidy	10,128,870
746	Mandatory Rent Rebates outside HRA: subsidy	1,266,945
747	Rent Rebates Granted to HRA Tenants: subsidy	3,230,020
750	Beacon	2,489
751	Capacity Building	18,144
752	Housing Acts/ Urban Developments - contributions towards cost of loan charges	1,348
753	New Deal for Communities (NDC)	73,484
754	LG Efficiency Challenge Fund	19
755	Efficiency Improvements in Local Government	10,068
756	Fire Services	13,149
757	New Ventures Fund	30
758	Best Value Parishes	0
759	Invest to Save	1,753
760	Neighbourhood Management Pathfinder	1,073
761	Neighbourhood Element	843
762	Joint Liveability	64
766	Tackling Extremism	303
767	Cleaner, Safer, Greener Element	343
769	Housing Market Renewal Grant	75,677
771	Countryside Commission Grant	3,664
772	Rural Social and Community Programme	643
782	Tackling Violent Crime Programme	992
783	Crime Reduction Grants	10,184
788	Youth Offending Teams Grant	65,232
791	European Community grants	79,749
798	Other grants outside AEF (a)	673,961
	TOTAL REVENUE GRANTS OUTSIDE AEF	
799	(total of lines 708 to 798) (Transferred to RS line 791 as income)	21,737,976
800	TOTAL SPECIFIC AND SPECIAL REVENUE GRANTS (total of lines 699 + 799)	64,663,926

(a) This category may include amounts which should have been allocated to one of the main grants in the preceding rows

Table C2c: Revenue Outturn Service Expenditure Summary (RSX) 2008-09

	EXPENDITURE				INCOME			Net Total Cost (excluding specific grants)
	Employees	Running expenses	Total expenditure	Sales, fees & charges	Other income	Total income	Net current expenditure	Capital Charges

Source: Revenue Outturn (RO) and Revenue Summary (RS) returns

(a) Includes capital charges accounted for in External and Internal Trading Accounts; provision for repayment of principal; leasing payments; external interest payments; and HRA item 8 interest payments and receipts.

(b) Includes council tax benefit; Discretionary Non-Domestic Rate relief; bad debt provision; and flood defence payments to the Environment Agency.

(c) Aggregate External Finance; see Glossary for definition.

(d) Inter-authority transfers in respect of reorganisation.

C4 Revenue account budget estimates

Table C4a gives full details of 2009-10 revenue budgets, from the *RA* return. The estimates are all at outturn prices. Detailed figures for budgeted service expenditure by individual local authorities are available in *Finance and General Statistics 2009-10*, published by CIPFA.

In **Table C4a** all of the data in the tables were collected on a Financial Reporting Standard 17 (FRS17) basis. More information on FRS17 can be found in **section 3.1**.

Table C4b gives 2009-10 specific and special grants budget information from the *SG* return.

Table C4c gives 2009-10 budgeted net current expenditure by service on FRS17 and non-FRS17 bases. These data are from the *RA* return.

Table C4a: Revenue Account Budget Estimates (RA) 2009-10

			£ thousand
	Net current expenditure	Capital charges	Net Total Cost (excl. specific grants)
Education Services			
110 Nursery schools	765,651	23,274	788,924
120 Primary schools	17,108,446	786,659	17,895,106

Table C4a: Revenue Account Budget Estimates (RA) 2009-10 (continued)

		£ thousand
	At 1 April 2009	At 31 March 2010
Financial reserves		
911 Estimated schools reserves level	1,877,857	1,847,478
915 Estimated other earmarked financial reserves level	7,962,324	6,733,930
916 Estimated unallocated financial reserves level	3,287,295	2,911,419
917 Estimated pensions reserve level ^(a)	-91,753,024	...
920 Prior Year Adjustments	-3,658	
Capital Charges	2009-10	
931 Depreciation	4,329,406	
933 Loss on impairment of assets	457,501	
934 Amortisation of deferred charges	707,193	
935 Credit for amortisation of capital grants ^(b)	-716,389	
939 Total capital charges (total of lines 931 to 935)	4,777,711	
(a) Data not collected at 31 March 2010, because the year end balance is affected by actuarial gains and losses on the assets and liabilities of the pension scheme, and it is not practical for authorities to estimate this figure in advance.		
(b) Where capital expenditure has been financed by capital grant, the grant is credited to the income and expenditure account over the useful life of the asset in the line with the depreciation charge.

(a) Figures are for individual service lines and do not include additions such as some housing benefits which are included in Table 1.

C5 Changes to English local government revenue finance systems

Before 1900, most of the spending of local bodies was financed locally. With the exception of police forces (which were supported by a 50 per cent Home Office grant) and some primary education grants, there were few grants from central government. Various rates were levied for specific services (for example highway rates, poor rates and school rates) and not all were assessed in the same way. Following the abolition of the separate poor rate in 1929, rates became a single unified tax. By then, sizeable central government grants were being paid to encourage different areas to provide services of a consistent standard. These were usually made for specific purposes, rather than as general (unhypothesized) financial support for local spending.

The position in 1945	Nearly 80 per cent of central government grants were in the form of specific grants. The remaining 20 per cent was an unhypothesized or block grant. Approximately equal amounts obtained from government grants and local rates.
1948	Transfer of responsibility for the setting of rateable values of all properties to the Inland Revenue Valuation Office. Previously, each local authority set its own rateable values, resulting in substantial differences between average rateable values for similar properties in different parts of the country.
1948	Block grant to be paid only to authorities whose means or rate resources were below the national average and renamed Exchequer Equalisation Grant.
1958	Many specific grants replaced by General Grant, a new form of unhypothesized block grant so specific grants accounted for less than 30 per cent of government grants. Exchequer Equalisation Grant renamed Rate Deficiency Grant.
1966	General Grant, Rate Deficiency Grant and specific grants for school meals and milk incorporated into Rate Support Grant (RSG) with three elements: domestic, needs and resources.
1971	Rating revaluation. New rateable values came into effect from April 1972.
1974	Following structural reorganisation, proportions of resources and domestic elements of RSG increased. Needs element paid to upper tier, resources and domestic elements payable to lower tiers. More specific grants incorporated into RSG. About 20 per cent of government grants were specific grants. Ratio of government grants: local rates approximately 17:10.

- 1981 Needs and resources elements of RSG became Block Grant – payable to both upper and lower tiers – and calculated to penalise high spending authorities for the first time. Its distribution was based on each authority's Grant-Related Expenditure (GRE) as calculated by the Department of the Environment.
- 1984 Rate limitation (**capping**) introduced. During the 1980s, the method of grant allocation was adjusted to provide a disincentive to over-spending.
- 1986 The government published a Green Paper, *Paying for Local Government*, which considered ways of improving the system.
- 1989 Non-domestic rating revaluation. New national rating system came into effect from April 1990.
- 1990 Domestic rates were abolished and community charge (poll tax) and nationally determined uniform non-domestic rate introduced. **Revenue support grant** replaced rate support grant. **Aggregate external finance (AEF)** replaced aggregate exchequer grant (AEG). **SSAs** replaced GREAs. Ring-fenced housing revenue account introduced. Districts collected RSG for the area and passed a portion of this and of community charge to county councils.
- 1991 An additional £140 per charge payer was provided in central government support, thereby increasing the proportion of local government spending funded by central government.
- 1993 **Council tax** replaced the community charge as the local domestic tax. RSG and non domestic rate entitlements were paid into the General Fund of each billing and major precepting authority rather than into the Collection Fund of billing (formerly charging) authorities.
- 1998 The White Paper *Modern Local Government – In Touch with the People* announced a 3-year review programme for Revenue Grant Distribution aimed at improving its fairness and equity.
- 1999 Pre-announced universal capping limits were discontinued to be replaced with reserve powers, which allowed local authorities budgets to be looked at over more than one year. Non-domestic rating revaluation. New rateable value came into effect from April 2000. **Central support protection grant** introduced to ensure minimum levels of grant support for billing and precepting authorities.
- 2000 *Modernising Local Government Finance: A Green Paper* consulted on options for reform of the revenue grant distribution system.

For authorities with education and social service responsibilities, damping of changes in grant support based on the floor and ceiling mechanism instead of through Central Support Protection Grant.

- 2001 The white paper *Strong Local Leadership – Quality Public Services* published in December 2001.
- 2002 A new formula grant distribution system was introduced, based on **formula spending shares** (FSS), instead of SSAs, from 2003-04.
- 2003 The Local Government Bill 2003 received Royal Assent on 18 September. The Act is a deregulatory measure which includes new borrowing freedoms, expenditure grants designed to allow all authorities more flexibility in the use of existing resources, the introduction of the new small business rate relief, powers to charge for discretionary services, new trading powers, the introduction of Business Improvement Districts, and the introduction of a fixed 10-yearly cycle for council tax revaluation.
- 2005 From 2003-04 local authorities' final accounts were required to comply in full with Financial Reporting Standard 17 (FRS17) on retirement benefits. This requires future liabilities for retired benefits to be recognised in the accounts for all the main categories of local government employees (other than teachers).
- 2006 A new formula grant distribution system was introduced, based on the four-block model, from 2006-07. Funding for schools was transferred from formula grant to a new **dedicated schools grant**. The first step in the move to three-year settlements took place, with the settlement announcement covering the two years 2006-07 and 2007-08.
- 2008 **Area based grant (ABG)**, a new non-ringfenced grant, was introduced from 2008-09 replacing a number of grants previously reported as specific grants.

ANNEX D

Capital spending and financing

This annex contains information on capital spending and how it is financed relating to **Chapter 4**. It is divided into the following sections:

- **Capital outturn summaries: 2008-09** **section D1**
- **Changes to English local government capital finance systems** **section D2**

D1 Capital outturn summaries

Tables D1a-c show 2008-09 **capital expenditure** and receipts information from the *capital outturn returns (COR)* for all service groups within the main service blocks. Information on acquisition of share and loan capital is not included in total capital expenditure, and disposal of investments is not included in total **capital receipts**.

Table D1d shows further details of gross expenditure on “new construction, conversion and renovation” of “roads (including structural maintenance), street lighting and road safety”.

Tables D1e-f show further details of local authority financed capital expenditure on social services by region and time series. The data shows the uneven nature of capital expenditure whereby in some years an authority will spend heavily on a specific project or purchase, whereas other years it will spend very little.

Table D1g shows a time series of expenditure that local authorities were allowed to finance from capital resources – capitalise – under section 16(2)(b) of the Local Government Act 2003.

DEFINITIONS OF COLUMN HEADINGS

Acquisition of land and existing buildings and works (including any road charges) – payments against the service for which the land is required for use rather than that appropriate to the powers used for acquisition; interest on purchase money is excluded, except where it is in connection with Slum Clearance Subsidy.

New construction and conversion – capital payments include the wages and salaries (including the employer's share of national insurance and pension contributions) of employees engaged on direct labour schemes, and the cost of architectural, engineering and other services (including the authority's own professional staff) in connection with these works and other overheads (including accommodation). Payments on demolition and site clearance and the erection of bridges is also included, as well as civil engineering works, for example for the provision, laying or replacement of water mains and sewers, the laying or improvement of roads, the preparation of playing fields and hard playing areas.

Vehicles – acquisition, renewal or replacement of vehicles and vessels (including ships and aircraft) and the acquisition of assets by **direct labour and service organisations**.

Plant machinery and equipment – acquisition, renewal or replacement of plant machinery and equipment, including furniture and fittings, and the installation of street lighting, road signs, traffic signals and related equipment, where the payment for these can be identified separately. Also includes the acquisition of assets by direct labour and service organisations.

Total expenditure on fixed assets – includes salaries of professional staff charged to the capital account.

Capital grants and advances – all grants and advances made for capital purposes, such as those for housing and industrial purposes.

Sales of fixed assets – amounts received by an authority in respect of the sale of any interest in a fixed asset, if, at the time of the sale, expenditure on the acquisition of that asset would have counted as expenditure for capital purposes. Also includes receipts from the sale of assets to other authorities.

Sales of intangible assets – covers receipts for intangible assets. This includes software licences and other intangible assets which are required by the **SORP** to be capitalised on the balance sheet. Generally intangible assets are assets of value which do not have a physical shape e.g. purchased franchises, licences and patents. Goodwill is excluded.

Repayments of capital grants and advances – repayments of grants, advances and other financial assistance of a capital nature. Includes repayments of renovation grants, repayments of principal (regular and premature) of loans to private persons and repayments of sums left outstanding (regular and premature) on the sale of council dwellings, where the purchase was financed by a mortgage. Also includes repayments of principal of loans to registered social landlords. Receipts from health authorities are excluded.

D2 Changes to English local government capital finance systems

Between the mid-nineteenth century and 1972, local government capital finance remained much the same with only minor amendments to its detail. Capital projects were financed by government grants, revenue, sales of capital assets or loans. Central control operated only on the loans. A local authority needed a sanction in order to use a loan, first giving approval for the project itself and secondly authorising the use of a loan. Loans were available from a variety of sources; the **Public Works Loan Board** (PWLB) was a major source.

- 1933 Local Government Act. It consolidated the legislation of the previous 50 years. Set out the type of expenditure which could be financed by borrowing (effectively anything a Minister considered proper) and detailed types of borrowing open to local authorities.
- 1945 The Local Authorities Loans Act. Virtually all borrowing had to come from the PWLB until 1952.
- 1955 The PWLB became lender of last resort.
- 1963 Controls were imposed on temporary borrowing. Access to the PWLB was relaxed. The Local Government (Financial Provisions) Act allowed authorities to borrow by issuing bonds.
- 1970 Capital expenditure was dealt with in three classes. Those in the Key Sector, covering the great majority of services, continued to require specific loan sanction; the Subsidiary Sector had general consent to borrow; and the Locally Determined Sector had block borrowing approval.
- 1972 The Local Government Act consolidated all previous legislation into one act but made no significant changes to the system. Loan sanctions were replaced by borrowing approvals.
- 1976 The Layfield Committee on Local Government Finance concluded that current arrangements were not conducive to proper planning, management and control of local authorities' capital programmes.
- 1981 New system set up under the Local Government, Planning and Land Act 1980. Capital expenditure was defined and controlled through annual capital expenditure allocations. Expenditure was monitored quarterly from 1978. Limits on capital expenditure were set partly by reference to a prescribed proportion of an authority's capital receipts.
- 1986 The government published a Green Paper, *Paying for Local Government*, which considered ways of improving the system.

- 1990 Part IV of the Local Government and Housing Act 1989 introduced the broad framework of the present capital finance system. Detailed provisions were set out in regulations. The main effect was to control capital expenditure funded by borrowing (and all other forms of credit) through the issue of credit approvals. The spending of capital receipts was regulated by the requirement for authorities to set aside part of their receipts as provision for credit liabilities.
- 1995 The Local Authorities (Companies) Order 1995 extended the system to the finances of companies controlled or influenced by local authorities.
- 1997 The Local Authorities (Capital Finance) Regulations 1997 consolidated the changes to the system made since 1990 and contained new provisions to encourage the use of the Private Finance Initiative.
- 1998 The Capital Finance Regulations were amended for most non-housing capital receipts, from 1 September 1998 removing the requirement for authorities to set aside part of the receipts.
- 2000 In 1998, the White Paper *Modern Local Government – In Touch with the People* announced a review of the capital finance system. A consultation paper *Modernising Local Government Finance: A Green Paper* was issued in September 2000. It suggests replacing the existing credit approval system for controlling capital expenditure with a prudential approach to determine what is affordable.
- 2002 In December 2001, the white paper *Strong Local Leadership – Quality Public Services* put forward proposals for a new **prudential capital finance system**, which would mean the end of credit approvals. On 2 April 2002, the Government abolished the **receipts taken into account** (RTIAs) mechanism, which was used to distribute local authorities' **basic credit approval** allocations under the Single Capital Pot.
- 2003 The Local Government Act 2003 put in place the broad legislative framework for the new prudential regime for borrowing by local authorities, which is supplemented by the *Prudential Code* developed and published by **CIPFA** and secondary legislation. This new system replaced that set out in Part IV of the Local Government and Housing Act 1989.
- 2004 From 1 April local authorities are, under the new Act and the CIPFA *Prudential Code*, free to finance capital spending from self-financed borrowing without the need to have government approval as long as it is affordable and prudent to do so.

- 2009 Changes in accounting practice brought most PFI schemes on to local authority balance sheets from 1 April 2009, and hence formally within the prudential capital finance system. However, CLG continue to publish capital expenditure data on the previous basis (leaving most schemes off balance sheet) because that is the basis on which National Accounts are prepared.
- 2010 From 1 April 2010 local authority accounts are based on International Financial Reporting Standards. This alters the accounting classification of some leases, though protection is provided for existing leases by CLG regulation allowing them to be accounted for in accordance with the old rules.

ANNEX E

Metadata

Most of the information in this publication comes from the following returns made to the Communities and Local Government by local authorities in England.

Table E1: Metadata

Code	Description	Frequency	Latest available	CLG contact telephone no.

ANNEX G

Glossary of terms and acronyms

*Cross references to other terms are shown in **bold**.*

Accruals basis – an accounting concept which requires that income and expenditure are accrued (i.e. recognised as they are earned or incurred, not as they are received or paid). Under this concept therefore inclusion or exclusion of an item of income or expenditure will depend on the period to which it relates, not the period in which it was received or performed.

ACC Adjusted credit ceiling – a modified form of credit ceiling, a measure of an authority's net indebtedness relating to capital transactions, which was used until 31 March 2004 solely for the purpose of calculating the **minimum revenue provision**.

AEF Aggregate external finance – central government revenue funding. It comprises **RSG**, **NNDR** (in the case of net AEF) and also includes certain **specific grants** (in the case of gross AEF). (**See section 2.4.1**)

Amortisation – the loss in value of an intangible asset due to its use by the company is accounted for by means of amortisation. Amortisation is a so-called "non-cash" charge insofar as it merely reflects accounting assessments of the loss in value.

ACG Annual capital guidelines – issued until 31 March 2004 by the government in respect of the main groups of services. Historically, a broad indication of the level at which the government considers an authority needs to spend on capital in the financial year. More recently, the element of an authority's **BCA** allocated on a service-related basis. (**See section 4.5.3**)

Alternative notional amounts

Alternative Notional Amounts (ANAs) are technical adjustments made to the budget requirement in a base year. This is undertaken in order that the subsequent budget requirement set by an authority for the following year can be compared with that for the base year on a like-for-like basis for capping purposes. Setting ANAs is the method prescribed in legislation for the Government to handle significant changes in local authorities' functions, finance or structure.

Area council tax

The average total amount of council tax payable for a Band D dwelling occupied by two adults within a billing authority's area. It is the sum of the amounts requested: a) by the billing authority; b) by major precepting

authorities covering the billing authority's area; and c) by parish or town councils within the billing authority's area. The amount at c) is the total amount requested by parish and town councils, averaged across the whole of the billing authority's area.

Average council tax per dwelling

The total council tax payable in an area divided by the total number of chargeable dwellings in the area.

Appropriations to/from reserves – these are respectively, the movement of monies into **reserves** from the **GFRA**, or out of **reserves** to the **GFRA**.

ABG Area based grant – This is a general grant allocated directly to local authorities as additional revenue funding to areas. It is allocated according to specific policy criteria rather than general formulae. Local authorities are free to use all of this non-ringfenced funding as they see fit to support the delivery of local, regional and national priorities in their areas.

BCA Basic credit approval – until 31 March 2004 the government's calculation for each local authority of the amount of **capital expenditure** it need not charge to a revenue account (i.e. that it may finance from borrowing or other forms of credit). It was calculated as follows: **annual capital guidelines** minus proportion of **capital receipts**. A basic credit approval was issued in advance of the year in question and **supplementary credit approvals** could be issued later. **(See section 4.5.1)**

Band D council tax

This is the council tax payable on a Band D dwelling occupied as a main residence by two adults, before any reductions due to discounts, exemptions or council tax benefit. This definition is widely regarded as a benchmark when comparing council tax levels in different areas or over time.

BVACOP Best value accounting code of practice – prepared and published by **CIPFA** with the aim of modernising the system of local authority accounts and reporting. Provides standard service and subjective analyses of local government expenditure and income, and standard costing definitions. **(See section 1.7.1)**

Billing authority – a local authority empowered to set and collect **council taxes**, and manage the **collection fund**, on behalf of itself and local authorities in its area. In England, shire and metropolitan districts, the Council of the Isles of Scilly, unitary authorities, London boroughs and the City of London are billing authorities. **(See section 1.6.3)**

Budget requirement – an amount calculated, in advance of each year, by each **billing authority**, by each **major precepting authority** and by each **local precepting authority**. It is broadly the authority's estimated net **revenue expenditure** allowing for movement in reserves. It is, therefore, the estimate of the amount to be met from **formula grant**, **GLA** general grant and from **council tax** income. **(See section 3.2.1)**

BR Budget requirement return – a form seeking information on the calculation of each local authority's **budget requirement** and **council tax**.

Business rates – a tax on non-domestic property based on the notional annual rent of a property known as the **rateable value**, also called **national non-domestic rates**.

Capital charges – charges to service revenue accounts to reflect the cost of fixed assets used in the provision of services.

CER Capital estimates return – a form seeking local authority forecasts of **capital expenditure** (and **receipts**) and how they plan to finance it.

Capital expenditure – expenditure on the acquisition of fixed assets or expenditure, which adds to and does not merely maintain the value of existing fixed assets. **(See section 4.1)** This standard accounting definition is modified in local government by regulations and directions made under Local Government Act 2003.

CERA Capital expenditure charged to revenue account – a method of financing **capital expenditure** where the expenditure is financed direct from revenue account in the year it is incurred **(See section 4.4.1)**.

COR Capital outturn return – a form seeking detailed final outturn about **capital expenditure** (and **receipts**) and how it has been financed.

CPR4 Capital payments and receipts return 4 – a form seeking provisional estimates of **capital expenditure** (and **receipts**) and how it has been financed.

Capital receipts – income from the sale of capital assets. Such income may only be used for purposes authorised by regulations under Local Government Act 2003, for example to repay loan debt and to finance new **capital expenditure**. **(See section 4.6.1)**

Capitalised current expenditure – expenditure which would normally score as **current expenditure** but which a local authority has been allowed to capitalise by a direction issued by the Secretary of State (eg redundancy payments).

Capping – when the government limits a local authority's **budget requirement** and hence its **council tax**.

Community amateur sports clubs relief – a relief within the business rates system to help sports clubs meet the cost of their rates.

Cash basis – an accounting convention in which transactions are recorded in the period in which payment is made or received as opposed to the period in which the transaction took place (**accruals basis**). **Capital expenditure** and **capital receipts** were, for many years, recorded on a cash basis but local authorities now account for them on an **accruals basis**.

Central support protection grant – paid for 1999-2000 and 2000-01 to provide minimum increases in the level of central government support (principally **RSG** plus redistributed **NNDR**). It ensured that authorities with education and social service responsibilities received at least a 1.5 per cent increase in support and that other authorities did not experience a year-on-year fall in support. From 2001-02 damping of grant changes for authorities is provided via the floor mechanism.

CIPFA **Chartered Institute of Public Finance and Accountancy** – the leading professional accountancy body for public services, whether in the public or private sectors

Chargeable dwellings

Those domestic dwellings in an area for which council tax is payable. It excludes dwellings on the valuation list which are exempt from paying council tax. Each chargeable dwelling is counted as one dwelling, whether or not a full council tax bill is payable for it. The total number of chargeable dwellings in an area is the denominator used to calculate the average council tax per dwelling.

City of London offset – an amount of **redistributed business rates** that the City of London is permitted to retain due to its unique circumstances.

Collection fund – the fund administered by a **billing authority** (from 1 April 1993) into which **council taxes** are paid, and from which payments were made to the general fund of **billing and major precepting authorities**. **NNDR** collected by a billing authority is also paid into the fund before being passed on to central government for distribution to local authorities (see section 2.3.1). Under the **community charge** system, **billing authorities** were known as charging authorities, and community charges, **RSG**, **NNDR** entitlements and special grants were all paid into their collection fund.

Community assets – are assets that the local authority intends to hold in perpetuity, that have no determinable useful life and that may have restrictions on their disposal, for example parks and historic buildings.

Community charge – the local domestic charge that was in operation between 1 April 1990 and 31 March 1993. Also known as the 'poll tax'.

Council tax – a local charge (or charges) set by the **billing authority** in order to collect sufficient revenue to meet their demand on the **collection fund** and the precepts issued by the precepting authorities. It replaced the **community charge** on 1 April 1993 and is based on the value of the property and the number of residents. The Valuation Office Agency assesses the properties in each district area and assigns each property to one of eight valuation bands; A to H. The tax is set on the basis of the number of Band D equivalent properties. Tax levels for dwellings in other bands are set relative to the Band D baseline. (See section 2.2.1)

Council tax band

There are eight council tax bands, A to H. Each domestic dwelling is assigned a council tax band by the Valuation Office Agency (VOA). Council tax bands are based on the value of the dwelling as at 1 April 1991.

CTB1 Council tax base return – a form seeking information on the calculation of the council tax base for **revenue support grant** purposes for each **billing authority**.

Council tax benefit – an income related social security benefit designed to help people on low income pay their **council tax**. Council tax benefit replaced community charge benefit on 1 April 1993. **(See section 2.2.7)**

CTBSL Council tax benefit subsidy limitation – a scheme designed to limit the amount of **council tax benefit** subsidy paid to local authorities if they made increases in **council tax** above a guideline set annually by the government. Not operated from 2002-03.

Council tax requirement –for billing and local precepting authorities this is the amount calculated under section 97(1) of the 1988 Act to be transferred from the **collection fund** to the general fund (except where the amount calculated is negative, in which case it is the amount to be transferred from the general fund to the **collection fund**).

Council tax transitional reduction scheme – this scheme limited the increase in a household's bill as a result of the change from **community charge** to **council tax** to a fixed amount for each band. Relief was withdrawn at a fixed rate in 1994-95 and 1995-96. There was no further relief from 1996-97.

Credit approvals – until 31 March 2004 authorisations given by the Government to local authorities that enable them to finance **capital expenditure** by borrowing or by other **credit arrangements**, such as finance leasing.

Credit arrangements – forms of credit that do not involve the borrowing of money by a local authority (eg finance leases).

Credit ceiling – until 31 March 2004 the difference between an authority's total liabilities in respect of **capital expenditure** financed by credit and the provision made to meet them.

Credit cover – until 31 March 2004 resources which need to be found to meet the initial cost of a credit arrangement (eg the capital value of payments made under a lease). Credit cover could be provided by setting aside as **PCL** usable **capital receipts** or an amount from revenue or by using a **credit approval**.

Current expenditure – a general term for the direct running costs of local authority services including employee costs and running expenses but excluding debt charges. Particular definitions include **net current expenditure**. **(See section 3.1.1)**

DSG Dedicated schools grant – there was a change in the funding of **specific and formula grants** in 2006-07 largely due to changes in the way that expenditure on schools is funded. From 2006-07, local authorities receive dedicated schools grant (DSG) as within specific grant rather than funding previously included in formula grant

Deferred capital receipts – these represent amounts derived from the sale of assets, which will be received in installments over agreed periods of time. They arise mainly from mortgages on the sale of council houses and form the main part of mortgages.

Deferred charges – these represent expenditure that does not result in the creation of a fixed asset for the authority, but has been designated as capital expenditure by regulation or direction. An example is grants given by authorities to support capital expenditure by other bodies. Deferred charges are being renamed by the SORP as revenue expenditure funded from capital under statute, but the earlier terminology is retained in this edition of *Local Government Financial Statistics England*.

Demand on the collection fund – after 1 April 1993, represents the amount calculated by a **billing authority** or **precepting authority** to be transferable from the billing authority's **collection fund** to its general fund. Between 1 April 1990 and 31 March 1993, represented the amount required from the **collection fund** by a charging authority in order to finance its own expenditure, and funded by **RSG, NNDR** and **community charges**.

Depreciation – Depreciation is the accounting recognition of the loss in value of a tangible fixed asset due to its use or its holding/ownership by the company. It thus covers two different phenomena: wear due to the use of a product (machines, fittings, careers, vehicles, buildings, etc.) and obsolescence, due to technological advances in the industry. Depreciation is a so-called "non-cash" charge insofar as it merely reflects accounting assessments of the loss in value.

Designation

This is one of the ways that the Government protects council taxpayers from excessive increases, by limiting a local authority's budget requirement (and hence its council tax) by requiring it to arrange and pay for new council tax bills to be sent out for a lower amount.

DLO Direct labour organisation – an organisation, which consists of workers directly employed by a local authority to carry out construction and/or maintenance work.

DSO Direct service organisation – an organisation which consists of workers directly employed by a local authority to carry out work formerly specified under the Local Government Act 1988.

Discretionary relief – in addition to mandatory reliefs, local authorities have the power to award relief at their discretion provided the hereditaments meet locally set criteria. The current categories of discretionary relief are:

- charity
- non-profit making bodies
- rural village shop
- other small rural businesses
- community and amateur sports clubs
- hardship
- charges on property

A further relief for former agricultural properties ceased during August 2006 and is no longer but may be applied retrospectively where applicable.

Distributable amount – the amount of centrally-collected **NNDR** that is estimated to be available to be distributed to local authorities. **(See section 2.3.8)**

Earmarked reserves – **reserves** held by an authority which are to be used for specified purposes.

Empty property rate relief – a relief within the business rates system to help owners/occupiers of empty properties meet the cost of their empty property Rates.

EPCS Environmental, protective and cultural services – one of the main blocks of local authority spending, which has its own relative needs formulae under the **RSG** system. The formulae are based on resident population and modified for sparsity, density, deprivation and for higher wage cost areas.

Fees and charges – see **sales, fees and charges**.

FRS17 Financial reporting standard 17– From 2003-04 local authorities' final accounts were required to comply in full with financial reporting standard 17 (FRS17) on retirement benefits. This requires future liabilities for retirement benefits to be recognised in the accounts for all the main categories of local government employees (other than teachers).

Fixed assets – assets that yield benefits to the local authority and the services it provides for a period of more than one year. **(See section 5.1.1)**

Following year designation

This is one of the ways that the Government protects council taxpayers from excessive increases, by limiting a local authority's budget requirement (and hence its council tax) in one or more subsequent financial years. Following

year designation is triggered by nomination or designation in a previous year and is intended to allow the authority a phased return to setting a non-excessive budget requirement.

Formula grant – the main channel of government funding. This includes **redistributed business rates, RSG** and police grant. The distribution is determined by the **FSS** formulae, also taking account of authorities' relative ability to raise **council tax** and the floor damping mechanism. There are no restrictions on what local government can spend it on.

FSS Formula spending shares – are a nominal measure of the relative cost of service provision, used for the distribution of grant from 2003-04. FSS replaces **SSA**. (See section 2.4.3)

FTSE all share index – is a series used to represent the performance of over 900 companies resident and domiciled in the United Kingdom. The prices used in the calculation of these indices are exact mid prices taken at the close of business each day.

GDP deflator – the GDP implied deflator is a measure of general inflation in the domestic economy. It reflects the movements of hundreds of different price indicators (especially of wages and profits) for the individual components of **GDP**. (See section 3.2.1)

Gearing – a measure of the impact on council taxes of increasing budgets. This varies widely between local authorities. An authority that meets 25 per cent of its **budget** through **council tax** is said to have a gearing of 4.0. Therefore, a 1 per cent increase in budget would lead to a 4 per cent increase in council tax. (See section 2.2.3)

GFRA General fund revenue account – the general fund is the fund within which, since April 1990, most transactions of a local authority take place. Other funds held by a local authority may include a **collection fund**, superannuation fund and trust funds held for charitable purposes. The general fund revenue account holds the revenue transactions of the general fund (See section 1.6.5)

Golden rule – this is a fiscal rule which states that, on average over the economic cycle, the Government should borrow only to invest and not to fund current expenditure. So to accord with this rule, the average surplus on current budget over the cycle should be positive. (See section 1.5.6)

GLA Greater London Authority – a strategic authority for London, created on 1 July 2000.

GDP Gross domestic product – is a measure of the total domestic economic activity. It is the sum of all incomes earned by the production of goods and services on UK economic territory, wherever the earner of the income may reside. GDP is equivalent to the value added to the economy by this activity. Value added can be defined as income less intermediate costs. Therefore growth in GDP reflects both growth in the economy and price changes (inflation).

Gross expenditure – see **total gross expenditure**

Gross revenue expenditure – is derived from **net current expenditure** by adding on net capital charges, **CERA**, gross expenditure on **council tax benefit**, and other non-current items. It is net of expenditure met by **sales, fees and charges** and interest receipts.

Gross total cost – includes all expenditure relating to a service/activity, including employee costs, expenditure costs, expenditure relating to premises and transport, supply and services, third party payments, transfer payments, support services and **capital charges**. Specifically it includes **capital charges** calculated in accordance with existing capital accounts guidance, but with certain aspects changed.

Hereditament – property which is or may become liable to **NNDR**, and thus appears on the rating list, compiled and maintained by the Valuation Office Agency of HM Revenue and Customs. **(See section 2.3.2)**

Housing benefit – financial help given to local authority or private tenants whose income falls below prescribed amounts. Central government finances about 95 per cent of the cost of benefits to non-HRA tenants ('rent allowances') and the whole of the cost of benefits to HRA tenants. Some local authorities operate 'local schemes' whereby they finance allowances in excess of the standard payments.

HRA Housing revenue account – a local authority statutory account, within the general fund, covering current income and expenditure on its housing services relating to its own housing stock. **(See section 3.8)**

Hypothecated grants – see **ring fenced grants**.

Impairment – this is where the value of an asset falls below the carrying (or book) value in the accounts and so to reflect the commercial reality of the situation a charge is made in the running costs.

Intangible asset – this is a non-physical fixed asset. Intangible fixed assets include patents, brands, etc.

Joint arrangements – refers to the transfer of money between one local authority and another, as distinct from joint arrangements between local authorities and health authorities, fishery boards or any outside bodies. This includes situations where two or more authorities jointly finance an enterprise, or where one authority carries out work on behalf of another.

Local PSA PPG Local public services agreements pump-priming grants – the grant was allocated to the local authorities to support eligible capital expenditure treated as capital expenditure by virtue of a capitalisation direction specified in Section 3 of the local PSA, including any expenditure agreed subsequently with central government to be supporting the delivery of LPSA targets. The last year the pump priming grant was part of the capitalisation process was 2006-07 and the final grant was paid out in 2007-08.

LSVT Large and small scale voluntary transfer – transfer of council housing stock to registered social landlords.

Levy – a payment that a local authority is required to make to a particular body (a levying body). Levying bodies include national parks authorities and passenger transport authorities.

Local precepting authority – parish councils, chairmen of parish meetings, charter trustees and the treasurers of the Inner and Middle Temples. These local authorities make a **precept** on the **billing authority's** general fund.

Mandatory relief – hereditaments are automatically entitled to relief of all or part of their rates bill provided they meet the criteria set down in legislation. There are currently five categories of mandatory relief:

- charity
- rural village shop
- community and amateur sports clubs
- partially empty properties
- empty properties

A further relief for former agricultural hereditaments ceased during August 2006 and is no longer available for the current year but may be applied retrospectively where applicable.

Major precepting authority – county councils, police authorities, metropolitan county fire and civil defence authorities, combined fire and rescue authorities and the **GLA**. These local authorities make a **precept** on the **billing authority's collection fund**.

MRP Minimum revenue provision – the minimum amount which must be charged to a revenue account each year and set aside as provision for repaying borrowing and meeting other credit liabilities.

NNDR National non-domestic rates – are a means by which local businesses contribute to the cost of local authority services. They are also known as **business rates**. On 1 April 1990 the rating of non-domestic (mainly commercial and industrial) properties was substantially reformed. Before 1990-91, rate poundages were set individually by local authorities and varied from authority to authority. Since 1 April 1990, a single national poundage has been set by the Government.

National non-domestic rates multiplier – the factor by which a **hereditament's** rateable value is multiplied in order to calculate the gross rates due on it before deductions.

NCE Net current expenditure – is, essentially, spending on services. It is defined as expenditure on employees and running expenses net of **sales, fees and charges**, internal recharges, other non-grant income (such as receipts from other authorities), but gross of expenditure funded by **specific grants** and interest receipts.

NRE Net revenue expenditure – is derived from revenue expenditure by deducting expenditure funded by specific grants inside **AEF**. It also represents spending other than the use of reserves, to be funded by the **budget requirement**. (See section 3.1.3)

Net total cost – is **gross total cost** less income including **sales, fees and charges** and all **specific grants** (i.e. all grants except **general grants**).

Net total cost excluding specific grants – is **gross total cost** less income other than **specific grants**. This is equivalent to **net current expenditure** plus **capital charges**.

NDPB Non-departmental public bodies – an organisation that is not a government department but which has a role in the processes of national government, these include organisations such as the Sports Council, English Heritage and Natural England.

Non-operational assets – are **fixed assets** held by a local authority but not directly occupied, used or consumed in the delivery of services. Examples are investment properties and assets that are surplus to requirements, pending sale or redevelopment.

Nomination

This is one of the ways that the Government protects council taxpayers from excessive increases, either by setting a notional budget requirement for an authority (limiting its ability to set high increases in the future) or by starting the process of 'following year designation'.

Notional budget requirement

An amount set by the Secretary of State following nomination which provides a lower base (that is, lower than the authority's actual budget requirement for the year) for measuring budget requirement increases in subsequent years for capping purposes.

ONS Office for National Statistics – is the government agency responsible for compiling, analysing and disseminating many of the United Kingdom's economic, social and demographic statistics including the **retail price index**, trade figures and labour market data as well as the periodic census of the population and health statistics.

Operational assets – are **fixed assets** held and occupied, used or consumed by a local authority in the direct delivery of those services for which it has either a statutory or a discretionary responsibility.

Parish

This is the amount of council tax collected by a billing authority for parish or town councils within its area. Parishes are local precepting authorities.

Pension funds – for the Local Government Pension Scheme, the funds that invest employers' and employees' pension contributions in order to provide pensions for employees on their retirement and pensions for employees' dependants in the event of death of the employee. The Local Government Pension Scheme consists of 81 pension funds that provide pensions for most local government workers in England, excluding teachers, police and firefighters. **(See section 7.1.1)**

Precept – the amount of money (**council tax**) that a **local** or **major precepting authority** has instructed the **billing authority** to collect and pay over to it in order to finance its net expenditure, i.e. **budget requirement** less income from **NNDR** and **RSG**.

PFI Private finance initiative – started in 1997-98, PFI offers a form of **PPP** in which local authorities do not buy assets but rather pay for the use of assets held by the private sector. **(See section 4.7.2)**

Procurement – expenditure on goods and services

PCL Provision for credit liabilities – until 31 March 2004 amounts set aside from revenue or **capital receipts** to repay loans and credit arrangements. **(See section 4.4.1)**

Provisions – sums set aside to meet any liabilities or losses in respect of a past event which are likely or certain to be incurred, but uncertain as to the amounts or dates on which they will arise.

Prudential capital finance system – this is the informal name for the system introduced on 1 April 2004 by Part 1 of the Local Government Act 2003. It allows local authorities to borrow without Government consent, provided that they can afford to service the debt from their own resources. **(See section 4.0.4)**

The Prudential code – a professional code of practice prepared by **CIPFA**, for the prudential system introduced on 1 April 2004 (see **Prudential capital finance system**). Local authorities are required by legislation to have regard to the Code.

PPP Public-private partnership – a joint venture where a private sector partner agrees to provide a service to a public sector organisation. **PFI** is one form of a PPP.

Public sector net borrowing – a concept based on internationally agreed definitions. It measures the change in the public sector's accruing net financial indebtedness. It is an accrual concept, whereas the closely related net cash requirement is almost entirely a cash measure. It is the government's preferred measure of the short term impact of fiscal policy. **(See section 1.5.9)**

Public sector net debt – this consists of the public sector’s financial liability at face value minus its liquid assets, mainly foreign exchange reserves and bank deposits. **(See section 1.5.6)**

PWLB Public works loan board – a body, now part of the Debt Management Office (a government agency), which lends money to public bodies for capital purposes. At present nearly all borrowers are local authorities. Monies are drawn from the national loans fund and rates of interest are determined by the Treasury. **(See section 5.2.1)**

QRC Quarterly return of council taxes and non-domestic rates

RV Rateable value – RV – the legal term for the notional annual rent of a **hereditament**, assessed by the **Valuation Office Agency**. Every property has a rateable value that is based, broadly, on the annual rent that the property could have been let for on the open market at a particular date. The RV is used in determining the **rates liability**, and therefore the bill.

Rates liability – the basis of the rates bill. The liability is the rateable value times the multiplier, but may be adjusted by any **transitional relief** in place, or by any **mandatory, discretionary** or **small business rate** relief applicable, to give the amount of rates payable.

RTIA Receipts taken into account – central government’s assessment of local authorities relative abilities to finance **capital expenditure** from their **usable capital receipts**. Discontinued from 2003-04. **(See basic credit approval)**

Recharges – the collective term for accounting entries representing transfers of (or to cover) costs initially debited elsewhere. They therefore comprise apportionments and charges.

Redistributed non-domestic rates – non-domestic rates which, having been paid into the non-domestic rating pool, are redistributed between local authorities on the basis of population, as part of **formula grant**. **(See NNDR and sections 2.3.7 and 2.4)**

Regions – this refers to the nine government office regions. See **Annex A1** for list and maps.

Reserves – sums held to finance future spending for purposes falling outside the definition of a **provision**. Reserves held for stated purposes are known as **earmarked reserves**. The remainder is **unallocated reserves**. **(See section 3.6.1)**

RPI Retail price index – is the main domestic measure of inflation in the UK. It measures the average change in the prices of goods and services purchased by most households in the UK.

RA Revenue accounts budget estimates return – general fund revenue accounts return for budget estimates.

RG Revenue accounts budget estimates return: income from specific and special grants – general fund revenue accounts return for budget estimates of income from **specific grants** and **special grants**.

Revenue expenditure – in a general sense, expenditure on recurring items including the running of services and capital financing. A particular definition of revenue expenditure is that derived from **gross revenue expenditure** by deducting spending met by grants outside **AEF** (including rent allowance grant, mandatory student awards grant and council tax benefit grant).
(See section 3.1.2)

RO Revenue outturn returns – suite of forms gathering outturn figures for the **general fund revenue account** consisting of the RS, RG, RO1 to RO6, **TSR** and **SAR**.

RSG Revenue support grant – a general grant which replaced rate support grant in 1990-91. Now it is distributed as part of **formula grant**.

Ring-fenced grants – these grants fund particular services or initiatives considered a national priority, and must be spent on a particular service.

Rural rate relief – relief within the business rates system to help retain essential commercial services in rural areas.

Sales, fees and charges – charges made to the public for a variety of services such as the provision of school meals, meals-on-wheels, letting of school halls and the hire of sporting facilities, library fines and planning application fees. (See section 2.5.1)

Settlement – the local government finance settlement is the annual determination made in a local government finance report by affirmative resolution of the House of Commons in respect of the following year of: the amount of revenue support grant and non-domestic rates to be distributed to local authorities; how that support will be distributed; and the support for certain other local government bodies.

Small business rate relief – The scheme offers rate relief at 50 per cent to eligible properties up to £5,000 rateable value, with relief decreasing at the rate of around 1 per cent per £100 of rateable value up to 0 per cent at £10,000. Eligible properties with rateable values between £10,001 and £14,999 (£21,499 in Greater London) do not have to contribute to the cost of the rate relief scheme.

SBRR Small business rate relief scheme (SBRR) – a relief scheme within the business rates system to help small businesses meet the cost of their rates. The SBRR is funded by those businesses not receiving benefit from the scheme through a supplement included in the national multiplier.

Specific formula grants – these are distributed outside the main formula, but do not have to be spent on a specific service, for example the neighbourhood renewal fund.

Specific grants – these are grants paid by various government departments outside the main formula. They include **ring-fenced grants** and **specific formula grants**.

Specified body – this is the term used for bodies (such as the local government Improvement and Development Agency and the National Youth Agency) that are directly funded from **RSG**, and that centrally provide services for local government as a whole.

SORP ***Code of Practice on Local Authority Accounting in the United Kingdom – a Statement of Recommended Practice*** – prepared by a joint committee of **CIPFA** and the Local Authority (Scotland) Accounts Advisory Committee. The Code gives a comprehensive statement of the accounting concepts, accounting policies and estimation techniques to be followed by local authorities, and also sets out the format of the accounting statements. **(See section 1.7)**

SSA **Standard spending assessment** – provided a basis for distributing grant until 2002-03 inclusive. It was calculated using information reflecting the demographic, physical and social characteristics of each area. **SSAs** were replaced by **FSSs** from 2003-04.

SAR **Subjective analysis return** – since 1998-99 a sample of local authorities have completed this return (120 up to 2004-05 and 143 from 2005-06). This shows how net current expenditure is broken down between pay and the procurement of goods and services. Pay is analysed to show the major pay negotiating groups. Procurement of goods and services is analysed to show goods and services purchased directly and services provided by external contractors (private contractors and voluntary organisations) or internal **trading services** (e.g. **DLOs** and **DSOs**). **(See section 3.4.2)**

SCA **Supplementary credit approval** – authorisation which used to be given by central government to a local authority not to charge a specified amount of **capital expenditure** to any revenue account (i.e. finance it from borrowing or other forms of credit) in addition to what has already been authorised by its **BCA**. From 1 April 2004 credit approvals have been replaced by **supported capital expenditure** (Revenue) or **SCE(R)**. **(See section 4.4.2)**

SCE **Supported capital expenditure** – the term for most forms of central government support for local authority **capital expenditure** from 1 April 2004. Supported capital expenditure (revenue) – **SCE(R)** – is the amount of expenditure towards which revenue grant support will be paid to a local authority on the cost of its borrowing. The revenue grant support is provided to help authorities with the costs of financing loans. Supported capital expenditure (capital) – **SCE(C)** – is the term used for capital grants. **(See section 4.5.2)**

Surplus on current budget – this is the net saving plus capital taxes. It represents the balance of revenue over **current expenditure**, whereas net borrowing measures the overall budget deficit i.e. the balance of receipts over expenditure, both current and capital. The surplus on current budget therefore represents the surplus available for investment.

Sustainable investment rule – this is a fiscal rule which requires that public sector net debt, as a proportion of **gross domestic product (GDP)** will be held, over the economic cycle, at a stable and prudent level.
(See section 1.5.11)

Tangible fixed asset – this is defined as a physical fixed asset and includes land, buildings, plant and machinery. These are held for use for by the authority for a period over more than one year.

Taxbase – the number of band D equivalent properties in a local authority's area. An authority's taxbase is taken into account when it calculates its **council tax**, and when central government calculates allocations of formula grant.

Total cost – see **gross total cost** and **net total cost**.

Total gross expenditure – gross spending, taking all local authority accounts together (except pension funds), after eliminating double counting of flows between services, accounts and other authorities, where this is possible. Total gross expenditure is divided into gross **revenue expenditure** and gross **capital expenditure** – see **Table 1.6b**. The definition used in Table 1.6b excludes payments of rent rebates, rate rebates, **council tax benefits** and **council tax transitional reduction scheme** to individuals because the purpose of such payments is to finance local authority expenditure rather than to increase it.

TME Total managed expenditure – this includes **current** and **capital expenditure** as well as depreciation but excludes financial account transactions. (See section 1.5.1)

Trading services – local authority services, which are, or are generally intended to be, financed mainly from charges levied on the users of the service. External trading services are typically organisations funded mainly by sales outside the authority. Internal trading services are typically organisations funded mainly through contracts with local authority departments, with the authority funding any loss, or receiving any surplus at the end of each year.
(See section 3.4.2)

TSRA Trading services revenue account – a local authority account, covering current income and expenditure on its **trading services**.

Transitional relief – Properties are revalued every five years and transitional arrangements are in place which moderate significant increases and decreases in bills. The transitional scheme is designed to be broadly revenue neutral over the life of the scheme. This revenue neutrality is achieved by phasing in both the decreases in the rate bills of those who benefit from revaluation, and also the increases in the rates bills of those who face higher rates bills due to revaluation.

The transitional relief scheme for the period 2005-06 to 2009-10 was designed to phase in significant changes in bills over a maximum of four years so that in 2009-10, the final year of the 2005 revaluation period, all hereditaments were expected to be paying their true rates liability.

Unallocated reserves – reserves held by an authority which may be used for any purpose.

Unhypothecated grant – see **general grant**.

Usable capital receipts – until 31 March 2004 this represented the amount of capital receipts available to finance **capital expenditure** in future years, after setting aside amounts laid down by statute for the repayment of debt.

Glossary of Terms

Council Tax/Capping

Alternative notional amounts

Alternative notional amounts (ANAs) are technical adjustments made to the budget requirement in a base year. This is undertaken in order that the subsequent budget requirement set by an authority for the following year can be compared with that for the base year on a like-for-like basis for capping purposes. Setting ANAs is the method prescribed in legislation for the Government to handle significant changes in local authorities' functions, finance or structure.

Area council tax

The average total amount of council tax payable for a Band D dwelling occupied by two adults within a billing authority's area. It is the sum of the amounts requested: a) by the billing authority; b) by major precepting authorities covering the billing authority's area; and c) by parish or town councils within the billing authority's area. The amount at c) is the total amount requested by parish and town councils, averaged across the whole of the billing authority's area.

Average council tax per dwelling

The total council tax payable in an area divided by the total number of chargeable dwellings in the area.

Band D council tax

This is the council tax payable on a Band D dwelling occupied as a main residence by two adults, before any reductions due to discounts, exemptions or council tax benefit. This definition is widely regarded as a benchmark when comparing council tax levels in different areas or over time.

Billing authorities

Billing authorities are the 326 authorities (354 before 1 April 2009) that are empowered to set and collect council taxes, and manage a collection fund, on behalf of themselves and other local authorities in their area. In England, district councils (metropolitan and shire), the Council of the Isle of Scilly, unitary authorities, London boroughs, and the City of London are billing authorities. These are also sometimes known as lower-tier authorities.

Budget requirement

An amount calculated, in advance of each year, by each billing authority, by each major precepting authority and by each local precepting authority (primarily parish councils). It is broadly the authority's estimated net revenue expenditure allowing for movement in reserves. It is therefore, the estimate of the amount to be met from revenue support grant, redistributed non-domestic rates, principal formula police grant, GLA general grant and council tax.

Capping

This is the informal term used when the Government takes action to protect council taxpayers from excessive increases, either by 'designation' or 'nomination'.

Chargeable dwellings

Those domestic dwellings in an area for which council tax is payable. It excludes dwellings on the valuation list which are exempt from paying council tax. Each chargeable dwelling is counted as one dwelling, whether or not a full council tax bill is payable for it. The total number of chargeable dwellings in an area is the denominator used to calculate the average council tax per dwelling.

Collection fund

The fund administered by a billing authority into which council taxes are paid, and from which payments were made to the general fund of billing and precepting authorities.

Council tax

This is a local charge (or charges) set by the billing authority in order to collect sufficient revenue to meet their demand on the collection fund and the precepts issued by the precepting authorities. It replaced the community charge on 1 April 1993 and is calculated based on the council tax band assigned to the dwelling. The Valuation Office Agency assesses the dwellings in each district area and assigns each dwelling to one of eight valuation bands; A to H. The tax is set on the basis of the number of Band D equivalent dwellings. Tax levels for dwellings in other bands are set relative to the Band D baseline.

Council tax band

There are eight council tax bands, A to H. Each domestic dwelling is assigned a council tax band by the Valuation Office Agency (VOA). Council tax bands are based on the value of the dwelling as at 1 April 1991. Any dwelling built after this date is given a notional 1991 value for council tax purposes [added post LGFS News].

Council tax benefit

Council tax benefit is available to those on low incomes and can contribute up to 100% of the council tax bill. The Department for Works and Pensions (DWP) hold policy responsibility for CTB.

Council tax requirement

This is an amount calculated, in advance of each year, by each billing authority and by each major precepting authority. It is the amount of revenue to be met from council tax, and is equivalent to an authority's Band D council tax multiplied by its council tax base.

Designation

This is one of the ways that the Government protects council taxpayers from excessive increases, by limiting a local authority's budget requirement (and hence its council tax) by requiring it to arrange and pay for new council tax bills to be sent out for a lower amount.

Following year designation

This is one of the ways that the Government protects council taxpayers from excessive increases, by limiting a local authority's budget requirement (and hence its council tax) in one or more subsequent financial years. Following year designation is triggered by nomination or designation in a previous year and is intended to allow the authority a phased return to setting a non-excessive budget requirement.

Gearing ratio

A measure of the balance of local authority funding between that part of revenue expenditure met through council taxes and the part met through other sources. This measure varies widely between local authorities. An authority that meets 25% of its revenue expenditure through council tax is said to have a gearing ratio of 4.0. Therefore, if the authority chooses to increase its expenditure by 1% it would need to increase its Band D council tax by around 3% (allowing for around 1% growth in its council tax base).

Local precepting authority

These are parish councils, chairs of parish meetings, charter trustees and the treasurers of the Inner and Middle Temples. These local authorities make a precept on the billing authority's general fund.

Levy

This is a payment that a local authority is required to make to a particular body (a levying body). Levying bodies include the Environment Agency, national park authorities and integrated transport authorities.

Major precepting authority

These are county councils in two-tier areas, police authorities, fire and rescue authorities and the Greater London Authority. These local authorities make a precept on the billing authority's collection fund.

Nomination

This is one of the ways that the Government protects council taxpayers from excessive increases, either by setting a notional budget requirement for an authority (limiting its ability to set high increases in the future) or by starting the process of 'following year designation'.

Notional budget requirement

An amount set by the Secretary of State following nomination which provides a lower base (that is, lower than the authority's actual budget requirement for the year) for measuring budget requirement increases in subsequent years for capping purposes.

Parish

This is the amount of council tax collected by a billing authority for parish or town councils within its area. Parishes are local precepting authorities.

Precept

The amount of money (council tax) that a local or major precepting authority has instructed the billing authority to collect and pay over to it in order to finance its net expenditure, i.e. budget requirement less income from revenue support grant, redistributed non-domestic rates, principal formula police grant and general GLA grant.

Reserves

These are sums held to finance future spending for purposes falling outside the definition of a provision. Reserves held for stated purposes are known as earmarked reserves, schools reserves are reserves held by individual schools with delegated budgets and the remainder are unallocated reserves.

Tax

This is the number of Band D equivalent dwellings in a local authority area. To calculate the tax base for an area, the number of dwellings in each council tax band is reduced to take account of discounts and exemptions. The resulting figure for each band is then multiplied by its proportion relative to Band D (from 6/9 for Band A to 18/9 for Band H) and the total across all eight bands is calculated. An adjustment is then made for the collection rate.

The tax base figure that is used by a local authority when it sets its council tax is called the council tax base in legislation, or more informally the tax-setting tax base. The term tax-setting tax base is sometimes used to distinguish the calculations used by local authorities from the 'formula grant' tax base calculation which is used to determine entitlement to formula grant. The two calculations are similar, but the main differences relate to:

- different data sets collected at different times in the year
- a collection rate of 100% is assumed for calculating the 'formula grant' tax base and
- the fact that the tax-setting tax base is based on the actual discount for second homes, whereas a discount of 50% is assumed for the 'formula grant' tax base.

Symbols and conventions

... = not available

– = not relevant

- = negative

0 = zero or negligible

B = budget

E = estimate

F = forecast

P = provisional

R = revised since the last Statistical release

|| = discontinuity

Rounding

Where figures have been rounded, there may be a slight discrepancy between the total and the sum of constituent items.
